Section 4(1)(b)(vii)

The particulars of any arrangement that exist for consultation with , or representation by, the members of the public, in relation to the formulation of the Commission's policy or implementation thereof

While discharging its functions under Electricity Act, 2003, the MERC is required to undertake various activities such as:

- 1. To make Regulations;
- 2. To issue Orders on Petitions:
 - a) Determination of tariff
 - b) Grant license
 - c) Adjudication of disputes between Licensees and Generating Companies.
- 3. Review and miscellaneous petitions.

While discharging the functions, MERC undertakes consultation with public and consumers' representatives by following the procedure as detailed below:

1) To make Regulations:

The Commission follows a detailed and transparent process before issuing Regulations. To start with, a Draft of the Regulations to be formulated is prepared and discussed with the Utilities and Authorized Consumers' Representatives.. As per the requirement of the Act, the Draft Regulations then undergo the process of 'previous publication'. This implies that the Draft Regulations are published for inviting objections/suggestions from the public. It is only after receipt and consideration of the objections/suggestions, the Regulations are finally approved by the Commission and notified in the Government Gazette and placed on the web-site of the Commission.

2) To issue Orders on Petitions for :

- a) Determination of tariff
- b) Grant of license

After the Petition is accepted by the Commission, the Commission determines the stages, manner, place, date and the time of the hearing of the matter, as considered appropriate for expeditious disposal. The Commission, accordingly directs the Petitioner that the Notice of the hearing may be advertised, normally at least 3 weeks before the date fixed for the hearing, in not less than 2 daily newspapers in English language and in not less than 2 daily newspapers in Marathi language having circulation in that area alongwith Petition in brief and Executive Summary thereof. The Petitioner is also directed to make available a copy of the Petition alongwith its enclosures and Executive Summary to the public and also to place it on the web-site of the Petitioner. Accordingly a Notice is published by the Petitioner inviting suggestions and objections to the Petition from the public.

After taking into consideration all submissions made by the Petitioner, all suggestions and objections from the public, responses of the Petitioner to the said suggestions/objections, issues raised during the public hearing and all relevant material, the final Order is issued by the Commission.

As regards the grant of Licence, the procedure as laid down in Section 15 of the Electricity Act, 2003, is also followed. Copy of the Commission's Order is put up on the Commission's web-site. Any affected person can file an Appeal against the Order of the Commission, before the Appellate Tribunal of Electricity.

3) Review and miscellaneous Petitions.

After the Petition is accepted by the Commission, Notices of petitions are sent to Petitioner, Respondent and authorized consumers' representatives for attending the hearing in the matter. Consumer representatives are allowed to participate in the hearing and express their views. After the hearing Daily Order and Record of Proceedings (RoP) are prepared, and copies of the same are sent to the Petitioner, Respondent and Consumer Representatives. RoPs of public importance are also exhibited on the Commission's web-site. After taking into consideration, the submissions made in the Petition, issues raised by the two parties and consumers' representatives in the hearing and all relevant documents, finally an Order is issued.

All Orders passed by the Commission are available on the Commission's website and copies of the same are sent to Petitioner, Respondent and Authorized Consumer representatives. The Petitioners or Respondents can file an Appeal against the Order of the Commission before the Appellate Tribunal of Electricity.

Section 4(1)(b)(viii)
