**Sub : Vetting of Fuel and Other Cost Adjustment (FOCA) Charges levied by
MSEDCL (erstwhile MSEB) for the months of July, 2003 to August, 2005.**

- Ref.: 1. Various FOCA submissions made by MSEDCL for the period July, 03
to August, 2005
2. SICOM's query Letter No. MERC/MSEDCL/FOCA dated 21.03.2006 to
MSEDCL
3. MSEDCL replies vide Letter Nos. SE/TRC/FOCA/8430 dated 05.04.2006 and
SE/TRC/9552 dated 20.4.2006

Sir,

The Commission in its Tariff Order dated 10th March 2004 for MSEB for the year 2003-04 (Revised Tariffs applicable from 1st December 2003) has observed that any additional amount recovered by MSEB through the FOCA formula for increase in cost in FY 2003-04 after June 2003, if any, will be adjusted against the FOCA recoverable. Accordingly, the Commission has vetted the FOCA computations of MSEB for the period July 2003 to November 2003 based on the Tariff Order dated 10th January 2002 (Part A) and for the period December, 2003 to August, 2005 based on the Tariff Order dated 10th March, 2004 (Part B).

I am directed to forward herewith the detailed vetting and approval of the Commission on FOCA charges for the months of July, 2003 to August, 2005 and the details of month wise under recovery/over recovery (summarized in Tables A & B). The Commission has arrived at net interest of Rs.1.34 crore, Rs.1.47 crore and Rs.0.23 crore on the under recovery / over recovery for the financial years 2003-04 (from July 2003 onwards), 2004-05 and 2005-06 (up to August 2005) to be passed on to consumers by MSEDCL. The year wise under recovery / over recovery on account of FOCA and the interest as above will be adjusted while carrying out truing up during consideration of your ARR proposal for the FY 2005-06 and 2006-07.

24th May, 2006

The Commission has already issued its vetting of FAC pertaining to the month of September, 2005 vide its letter dated 24th February, 2006 and for the months of October, 2005 to February, 2006 vide its letter dated 5th May, 2006.

With this, all the FOCA & FAC matter stand disposed.

With regards,

Yours faithfully,

Sd/-
(Ms. Malini Shankar)
Secretary

Detailed Vetting Report

MSEB/MSEDCL, FOCA Charges for the period July 2003 to August 2005

Attachment to letter No. MERC/MSEDCL/FOCA/ 1143, dated 24th May 2006

Part A

Vetting of the FOCA charges of MSEB for July 2003 to November 2003

1. The Commission issued an order in the matter of FOCA of erstwhile MSEB on 31st July 2001. The principle of the FOCA was to pass on the effect of the increased cost per unit beyond the control of the Board or the reduced cost per unit as the case may be from month to month.
2. The tariff order in respect of MSEB for 2001-02 was issued in January 2002 and the Clarificatory order and Corrigendum to the Tariff Order was issued on April 11, 2002. The Clarificatory order spelt out the station wise fuel cost, heat rate and auxiliary consumption. In the Clarificatory Order actual station wise generation cost and the power purchase cost break up for the period April, 2001 to September, 2001 and projected station wise generation cost and the power purchase cost break up for the period October, 2001 to March, 2002 has been given.
3. The Commission vide its letter dated 28th April 2003 has approved FAC charges for the period October 2001 to November 2002 based on the second Tariff Order issued in January 2002. The salient features of the said order are as below :
 - a. The Commission considered the heat rate and auxiliary consumption approved in the Tariff Order for 2001-02 for each station on monthly basis for computing the variation in cost of generation. The allowable T & D loss was considered as 26.87%
 - b. The change in generation cost and power purchase cost was computed on a per unit basis.
 - c. The incentives billed by Central Sector Generating Stations (CGS), change in the Income Tax paid / payable to the CGS on a monthly basis, operation and maintenance charges payable to the Western Region Load Despatch Centre (WRLDC), Monthly Operating Pattern Adjustments (MOPA) charges and other past adjustments billed by CGS and UI charges were considered as uncontrollable cost and were allowed under FOCA.

- d. The UI charges to be justified in future before passing on through the Z factor.
 - e. The Commission not to entertain subsequent FOCA proposals without cost audits.
 - f. MSEB to ensure that the cost changes are worked out and adjusted on a monthly basis as per the approved formula and prevailing norms thereby avoiding unnecessary delay in either recovering the increased cost or passing the benefit to the consumer due to decreased cost.
4. The Commission issued 3rd Tariff Order for the year 2003–04 on 10th March 2004 with the revised Tariffs applicable from 1st December 2003. In the said order, the Commission has observed that any additional amount recovered by MSEB through the FOCA formula for increase in cost in FY 2003-04 after June 2003, if any, will be adjusted against the FOCA recoverable.

Approach of the Commission:

The Commission has vetted the FOCA computations of MSEDCL for the period July 2003 to November 2003 based on the Tariff Order dated 10th January 2002 and has disallowed the excess cost beyond the normative parameters.

i) Variable cost of generation :

- a) Actual variable cost of power generation submitted by MSEDCL for each station for all the months is certified by CA.

b) Fuel Cost –

MSEDCL has considered coal handling charges, ash handling charges, storage charges and establishment charges as part of the variable cost of generation. As the Tariff Order dated 10th January, 2002 has not specifically given the cost on account of fuel cost and other charges separately, the Commission has allowed these cost to be considered as part of the variable cost of generation for arriving at the change in cost on comparable base parameters.

MSEDCL has considered the actual transit loss as part of the cost of the fuel. The Commission in its Tariff Order dated 10th January, 2002 has not considered the Transit Loss as part of the cost of the fuel. The Honorable High Court in Appeal No.1 & 2 of 2001 in MERC Case No.10 & 11 of 2001 vide its order dated 24th February, 2003 has observed that “the percentage of the loss has to be necessarily determined by MERC on the basis of evidence before it and after hearing the parties. It is not disputed that the exercise to determine coal transit loss for the year 2000 is academic as the period is already over. Needless to say that MSEB will have the right to claim coal transit loss for subsequent years”. Accordingly, the Commission has allowed MSEDCL to claim actual transit loss incurred during the months July 03 to December 03 as per Cost Audit Certificates as part of the variable cost of generation.

MSEDCL has not clarified the Other Adjustments considered in Statement of Cost of Fuel and Other Charges at the time of submissions of FOCA proposals. Further, MSEDCL has not clarified the same despite the directives from the Commission and has informed vide its letter dated 20th April, 2006 that the same are maintained at individual power station of Maharashtra State Power Generation Company Limited (MSPGCL) and would be submitted after receipt of the same. In the absence of the clarifications from MSEDCL, the other adjustments have been deducted from the cost of the fuel considered by MSEDCL. In case MSEDCL submits these details before the process of Truing Up then depending upon the nature of the expenses i.e. whether controllable or non controllable expenses the same can be considered for truing up.

c) **Auxiliary consumption** –MSEDCL has taken auxiliary consumption at each unit at normative levels for calculation of variable cost of generation and the same is allowed. MSEDCL has not given the actual auxiliary consumption of each station.

d) **Heat Rate** - MSEDCL has worked out the variable cost of generation considering the lower of the actual heat rate or the normative heat rates of each station. The Commission has reworked the variable fuel cost based on the normative heat rates.

ii) **Cost of power purchase –**

1. Based on the Tariff Order dated 10th January, 2002 and the Clarificatory Order dated 11th April, 2002, the Commission has considered the base fixed costs and weighted average variable cost of power purchase as given below for computation of FOCA.

(Rs. Cr.)

Station	Fixed Cost / Month
Vindhyachal	29.27
Korba	15.39
Kawas	9.66
Gandhar	16.57
Income Tax – NTPC	11.67
PGC	5.92
Income Tax – PGC	0.42
Income Tax – NPC	1.13
Weighted average variable cost of power purchase	Rs.1.1681/unit

The monthly base fixed cost figures used by MSEB are different and are modified as indicated above.

2. MSEDCL has submitted the data for the power purchase certified by Chartered Accountant. The sample bills for the power purchase are not submitted.
3. The Commission has not considered UI charges in the Tariff Order. However, it has considered the same in its Vetting dated 28th April, 2003 with a observation that such charges have to be justified in the future. MSEB has been incurring substantial expenditure on account of UI charges. Considering the severe power shortage faced by MSEDCL, the substantial UI purchases are allowed under power purchase cost instead of considering under Z factor as purchase of energy through UI has become one of the source for MSEDCL.
4. **Loss in Power Purchase:** There is a substantial loss of energy in the Power Purchase as indicated below:

Month	Scheduled Energy as per WREB (MU's)	Loss in MU's	Loss as % of scheduled energy
Jul. 03	1180.52	62.53	5.03%
Aug. 03	1223.16	65.42	5.08%
Sep. 03	1245.09	67.82	5.17%
Oct. 03	1380.12	79.26	5.43%
Nov.03	1423.30	100.03	6.5%

As the grid losses are not in control of MSEDCL the same are allowed.

- iii) **Interest on working capital** – MSEDCL has not charged interest on additional working capital due to change in fuel cost and accordingly the same is not considered by the Commission.
- iv) **Adjustment factor for over recovery / under recovery** - MSEDCL has not considered any adjustment for over recovery / under recovery in the monthly FOCA statements. The Commission directs MSEDCL to pass on the over recovery or claim the under recovery as per the FOCA Order dated 31st July, 2001 in future. It has claimed an under recovery of Rs.10 crore for July, 2003 to November, 2003 without considering disallowance of FOCA towards excess T&D loss. The Commission has disallowed FOCA towards excess T&D loss for arriving at under recovery/ over recovery. The Commission has considered interest @ 6 p.a. on monthly under / over recovery amount.
- v) **Z- unpredictable and uncontrollable expenses / income earned by MSEDCL**
Adjustment for revised rate of wind energy purchase: The commission in its order dated 24th November 2003 in the matter of procurement of wind energy and wheeling has given the rates payable for the various years applicable to projects commissioned during the period 27.12.1999 to 31.03.2003 for purchase of wind energy. MSEB had purchased wind energy at different rates during the period 2000-01 to 2003-04 (upto September 2003) as per relevant tariff orders. MSEB has recalculated the additional amount recoverable for the year 2000-01 to 2003-04 (upto September 2003) and has claimed an amount of Rs.30.08 crore. as part of the other cost component of the FOCA in the month of October 2003. The detailed calculations as submitted by MSEDCL (not certified) are as below :

Particulars	2000-01	2001-02	2002-03	2003-04 (up to Sept. 03)
As per the respective tariff order				
Adhoc Purchases from Wind, Cogen. Etc. (MU)	50.00	200.00	200.00	480.00
Amount allowed in (Rs. Crs.)	12.50	61.00	61.00	152.00
Per unit as per relevant tariff orders (Rs.KWh)	2.50	3.05	3.05	3.17
Actual Purchase from wind mills (MU) (X)	48.83	76.70	207.48	106.51
Amounts recovered including recovery under FOCA provisions, in respect of electricity purchases from wind energy developers				
Purchases claimed through FOCA (MU)	NIL	55.25	187.51	106.51
Amounts claimed (Rs. crore.)(A)	NIL	16.42	57.19	33.13
Per unit rate (Rs. per kWh)	NA	2.97	3.05	3.11
Tariffs recommended as per MERC order				
Applicable Rate as per MERC order dated November 24, 2003 on purchase from wind mills (Rs)(Y)	2.91	3.02	3.13	3.24
Total amount as per new order (Rs Crs.) (X)*(Y) = (B)	14.21	23.16	64.94	34.51
Additional recoverable (B) – (A) (Rs.Crs)	14.21	6.74	7.75	1.38
Total	Rs.30.08 crores			

The Commission has allowed MSEDCL's claim of Rs.30.08 crore towards adjustment for revised rate of wind energy purchase under the Z factor for the month of October, 2003.

MSEDCL has also shown an adjustment of Rs.0.9 crore for the wind energy purchased in October, 03 under Z factor for differential rate. However, the Commission has considered the wind power purchase rate as Rs.3.24 / unit in October, 03 and hence the same is not considered under Z factor.

Part B

Vetting of the FOCA charges of MSEDCL for December 2003 to August 2005.

1. The Commission issued the Tariff Order for the year 2003 – 04 on 10th March 2004 with revised Tariffs applicable from 1st December 2003
2. The Commission vide its letter dated 24th February, 2006 has given its vetting of FAC for the month of September 2005 based on the Tariff Order dated 10th March 2004. In the said letter, the Commission has given approved variable fuel cost based on the Tariff Order dated 10th March 2004 as against the variable cost of generation indicated in the said Tariff Order.

The Commission's analysis and approach while vetting FOCA submissions for December 2003 to August 2005 is as below:

- i. Though the Tariff Order dated 10th March, 2004 is with effect from 1st December, 2003, MSEDCL has worked out the FOCA for December, 2003 based on the previous Tariff Order dated 10th January, 2002. The Commission has reworked the entire base figures by considering Tariff Order dated 10th March, 04.
- ii. **Variable cost of fuel :**
 - a) Actual variable cost of power generation for each station for all the months is certified by CA.
 - b) MSEDCL has not submitted the FOCA Submissions in the Standard Formats as prescribed by the Commission vide its letter dated 22nd August, 2005 for the period April, 2005 to August, 2005
 - c) **Fuel Cost** - MSEB has included the costs on account of coal handling charges, ash handling charges, storage charges, establishment charges, maintenance charges and adjustments on account of 1% inventory shortages, other adjustments (not specified) and transit loss component in the variable cost of generation for computation of the FOCA. As per the Tariff Order dated 10th March, 2004, any change in the fuel prices and power purchase cost vis-à-vis the cost considered by the Commission is to be recovered/ refunded through the FOCA mechanism. The Commission vide its letter dated 24th February, 2006 has given approved variable fuel cost to be considered for

FAC calculations as against the variable cost of generation indicated in the Tariff Order. **Accordingly, the Commission has considered the variable fuel cost as indicated vide its letter dated 24th February, 2006 as the base cost for arriving at the change in fuel cost.** As the costs like coal handling charges, ash handling charges, storage charges, establishment charges, maintenance charges and adjustments considered by the MSEB as part of variable cost of generation are not on account of change in the fuel prices, the same have not been considered as part of the actual variable cost of fuel. The principle of the FOCA was to pass on the effect of the increased cost per unit beyond the control of the Board or the reduced cost per unit as the case may be from month to month. As the above cost are not uncontrollable costs, the same are also not considered as part of the Z factor of the FOCA formula.

- d) **Auxiliary consumption** –MSEDCL has taken auxiliary consumption at each unit at normative levels for calculation of variable cost of generation and the same is allowed. MSEDCL has not given the actual auxiliary consumption of each station.
- e) **Heat Rate** - MSEDCL has worked out the variable cost of generation considering the lower of the actual heat rate or the normative heat rates of each station. The Commission has reworked the variable fuel cost based on the normative heat rate.
- f) **Transit Loss** – MSEDCL has not considered the excess fuel cost on account of excess Transit Loss. The Commission has worked out the variable fuel cost considering normative transit loss as approved in the Tariff Order for FY 2003-04. The adjustment to transit loss given by MSEDCL separately has been added to the Transit Loss amount.

iii. **Cost of power purchase –**

- a. MSEB vide its letter dated 15th April, 2004 had informed the Commission about the power purchase for the year 2004-2005 from the suppliers NVVN, PTC, TPC and Adani through competitive bidding process through tenders to reduce impact of load shedding.
- b. MSEB had also informed the Commission about purchase of power from NTPC Vidyut Vyapar Nigam Ltd. for 100 MW, PTC for 300 MW and Adani

40 MW on round the clock basis from 1st April, 2004 to 15th June, 2004 vide its letter dated 11th March, 2004.

- c. On the matter of power purchase expenses for the FY 2004-05, the Commission vide its letter dated 1st September, 2004 has observed that in order to make any demand beyond the approved Tariff Order base line, if MSEB is required to purchase power over and above the approved quantum, specific approval of the Commission is not required so long as it meet the merit order norms and the increase in quantum and expenses of such power purchase is proportionate i.e. if the average per unit cost is not exceeded. Further, to the extent that there is an increase in per unit cost associated with increased power purchase, the difference cannot be approved in isolation and other aspects needs to be examined as a part and parcel of ARR and Tariff determination and not in the FOCA mechanism. MSEB vide its letter dated 16th March, 2005 has informed that considering net MSEB generation and assistance from Central sector, there is a huge gap in the supply of power and heavy quantum of load shedding has to be done. (2500–3000 MW) and requested the Commission to permit MSEB to purchase power from Traders beyond the prescribed ceiling and allow MSEB to recover the excess cost through FOCA. As the Commission cannot allow such extra purchase of energy without approval of the long term power procurement plan it had directed MSEDCL to submit the long term power procurement plan along with ARR and Tariff Petition.

MSEDCL has now submitted its ARR Petition for FY 2006-07 alongwith truing up for FY 2004-05 and FY 2005-06. In the meantime, **the commission has considered the extra purchase of energy in the FOCA calculations in view of shortage of supply of energy faced by MSEDCL to meet the demand.**

d. Base Fixed Cost & Variable Cost of Power Purchase:

Based on the Tariff Order dated 10th March, 2004, the Commission has considered the base fixed costs and weighted average variable cost of power purchase as given below for computation of FOCA.

(Rs. Cr.)

Station	Fixed Cost / Month
Vindhyachal I & II	22.40
Korba	11.14
Kawas	9.76
Gandhar	18.44
Power Grid Corporation	15.00
Income Tax – NTPC	7.92
Income Tax – NPC	1.40
Weighted average variable cost of power purchase	Rs.1.2973/unit

The monthly base fixed cost figures used by MSEB are different and are modified as indicated above.

- e. MSEDCL has submitted the data for the power purchase certified by Chartered Accountant. **The sample bills for the power purchase are not submitted.**
- f. **MSEDCL has not considered cost of power purchase from Sardar Sarovar for the months of August, 2004 to August, 2005 in the FOCA calculations and hence the Commission has also not considered the same.**
- g. The Commission in its Tariff Order dated 10th March 2004 has observed that “a certain level of UI charges are unavoidable due to grid requirements and the demand – supply situation at that point in time. There is an opportunity for the MSEB to purchase power at times of high frequency at very cheap rates and MSEB should actively explore this option to reduce its cost. MSEB on the other hand has been incurring substantial expenditure on account of UI charges which cannot be allowed in toto. Hence, the Commission has allowed UI charges at a normative level of 1% of total energy input requirement”. However, it has been observed that MSEDCL has purchased substantial power through UI. **Considering the severe power shortage faced by MSEDCL, the substantial UI purchase over the normative level of 1% of total energy input requirement considered in the tariff order dated 10th March 2004 are allowed under power purchase cost instead of considering under Z factor.**

- h. **Loss of energy in the Power Purchase:** There is a substantial loss of energy in the Power Purchase being at 4.8 % of the scheduled energy. As the grid losses are not in control of MSEDCL the same are allowed.
- iv. **Interest on working capital –** MSEDCL has not charged interest on additional working capital due to change in fuel cost and accordingly the same is not considered by the Commission.
- v. **Adjustment factor for over recovery / under recovery -** MSEDCL has not considered any adjustment for over recovery / under recovery on month to month basis. It has claimed an under recovery of Rs.350 crore for December, 2003 to August, 2005 without considering disallowance of FOCA towards excess T&D loss. The Commission has arrived at under recovery / over recovery after considering disallowance towards excess T&D loss. The Commission has considered interest @ 6 p.a. on monthly under / over recovery amount.
- vi. **Z – unpredictable and uncontrollable expenses / income earned by MSEDCL**
The expenses claimed by MSEDCL are Tax on Sale of Electricity, Entry Tax, Special Allowance, Additional DA and other adjustments, details of which are as given below :

a. **Tax On Sale of Electricity (TOSE) :**

The Commission issued order dated 24th May, 2005 in the matter of TOSE to Industrial and Commercial consumers by MSEB. As per the alternative (a) of the Order, TOSE can be recovered through the prevailing FOCA Formula until such time as the new Tariff Regulations are notified and in respect of the period prior to such notification.

MSEDCL has worked out approx. amount of TOSE at Rs.107.74 crore and has charged the same in three installments of Rs.35 crore, Rs.35 crore and Rs.37.74 crore in the FOCA of the month April, 2005, May, 2005 and June, 2005 respectively. Further, an amount of Rs.7.72 crore each is recovered through FOCA in the month of July, 2005 and August, 2005. **MSEDCL has**

not given actual working of an amount of Rs.107.74 crore and the TOSE amount for July, 05 and August, 05 are not certified.

The Commission has considered the TOSE of Rs.107.74 crore as estimated by MSEDCL and Rs.7.72 crore each in the FOCA of July, 05 and August, 05. The difference between actual and estimated TOSE of Rs.107.74 crore, if any to be adjusted in future FAC submissions.

b. Entry Tax of Rs.3.19 Crore in June, 2005:

MSEDCL has considered an amount of Rs.3.19 crore as part of the Other Costs. This amount has been deposited with the Tax authorities as an entry tax on petroleum products w.e.f. 1.10.2002 on Inter State Purchases by MSEB under Maharastra Tax on Entry of Goods to Local Area Act. 2002. **However, based on the documentary submissions made by MSEDCL, it is clear that out of the said amount an amount of Rs.0.41 crore and Rs.0.28 crore have been adjusted in FOCA of Khaparkheda and Kordi stations in the month of April, 2004 without the prior permission of the Commission. However, MSEB letter dated 19th August, 2004 forwarding the FOCA submissions for April 2004 confirms that there are no new factors envisaged in the computations and hence prior approval of the Commission is not required.**

Thus there are contradictory submissions made by MSEDCL about the Entry Tax. The Commission has considered an amount of Rs.2.50 crore (Rs.3.19 crore - Rs.0.69 crore already claimed in FOCA for April, 2004) in June 2005 as against the claim of Rs.3.19 crore by MSEDCL in June, 2005.

c. Special Allowance of Rs.21.78 crore in FOCA of July, 2005:

MSEDCL has considered an amount of Rs.21.78 crore towards Special Allowance in the FOCA for July, 2005 and has charged through the FOCA to the consumers in November, 2005. MSEDCL has submitted the FOCA details for July, 2005 vide its letter dated 10th March, 2006 to the Commission. **Thus, Special allowance was passed through the FOCA without the approval of**

the Commission. As per the FOCA Order dated 31st July, 2001, MSEDCL was required to take Commission's approval for passing the Special Allowance through FOCA.

MSEDCL had not given detailed working of the Special Allowance along with the FOCA submissions. The Commission's Consultant vide their letter dated 21st March, 2006 sought clarifications from MSEDCL about Special Allowance. As per the submissions made by MSEDCL vide its letter dated 5th April, 2005, the Special Allowance is related to the employees and officers of the MSPGCL, MSETCL & MSEDCL working in Naxalite Affected Areas declared by the Government and in terms of the decision of the Government to give special allowance to such employees @15% w.e.f. the date of the decision i.e.6.8.2002.

However, MSEDCL has not submitted detailed calculations of the Special Allowance amount and it is an estimated amount (not certified). **As MSEDCL had not sought specific approval of the Commission for inclusion of Special Allowance in FOCA in its submissions and the detailed calculations are not available, the Commission has not considered the same in FOCA.**

d. Additional Dearness Allowance of Rs.2.6 crore:

The Commission vide its letter dated 22nd September, 2004 has allowed MSEB to pass through the additional expenses on account of increase in DA under the Z factor of the FOCA formula as computed by MSEB, but excluding any employees who are not covered within the scope of Clause 2 of the settlement entered into with the Unions on 16th November , 2000, staggered over 3 months. MSEB has passed an amount of Rs. 54.47 crore each through FOCA in the month of June, July and August 2004, aggregating Rs. 163.41 crore. Further, the Commission vide its letter dated 20th September, 2005 had directed MSEB Holding Company Ltd. to refund an extra amount of Rs.2.6 crore recovered from the Consumers on account of additional DA and PF

payment to employees in subsequent month FOCA/FAC. Accordingly, MSEDCL has reduced the FOCA amount of July, 2005 by Rs.2.6 crore.

e. Other Adjustments:

MSEDCL has considered Other Adjustments in the Statement Cost of Fuel and Other Charges for arriving at variable cost of generation. The Commission has taken base variable fuel cost as per the Commissions letter dated 24th February, 2006 which excludes these adjustment. The Consultant of the Commission had requested MSEDCL vide their letter dated 21st March, 2006 to give details of all of these adjustment **which are not received**. Based on the available information, non controllable costs like Umpire & Post Umpire Settlement for claim relating to the period 1.4.95 to 30.9.01 which were securitised in 2003-04 for Khaparkheda Station of Rs.4.79 crore each in May 2005, June, 2005, July, 2005 and August, 2005. are considered as part of the Z factor.

f. Annual Limit on FOCA:

As per the FOCA order dated 31st July, 2001, there is an annual limit of 10% of the average cost of supply or the consumer price index (CPI), for the same period, whichever is less, on the FOCA per unit. The Commission de linked the cap from Consumer Price Index for Tata Power vide its letter dated 4th April, 2005 and for Reliance Energy vide its letter dated 13th April, 2005. The cap for MSEDCL comes to 28.30 paise/unit (based on 10% of the average cost of supply). Though MSEB has breached the cap in the month of August, 2004, Oct. 2004 and March, 2005 on annual basis FOCA rate is within the cap (28.30 paise /unit) for the year 2004-05. **However, MSEDCL has breached the cap of 28.3 paise / unit in the months of April 05, May 05 and July 05 in the year 2005-06.**

ANNEXURE

FOCA calculations for the month of July 2003 (includes transit loss)	
Summary - Total FOCA to be charged	To be levied over
	one month
FOCA (Rs. cr.)	25.65
Cost of generation	42.21
Fixed Cost of power purchase	4.23
Variable Cost of power purchase	12.62
Other costs of power purchase	(33.40)
Energy Input	4,845
Generation	3,443
Power Purchase	1,402
T&D loss target	26.87%
FOCA liable sale	3,543
FOCA rate (metered sale) paise/kWh	7.24
FOCA rate (metered sale) paise/kWh after rounding off	7.00
FOCA rate (unmetered sale) Rs/hp/month	
- LT-Ag (1250 hours per year)	6.00
- HT-Ag (3600 hours per annum)	16.00
- Water Works, Gram Panchayat (9.13 hours per day)	15.00
- Water Works, 'C' Class Municipals (11.32 hours per day)	19.00
- Powerlooms	13.00
