

## Ref. No. MERC/FAC/2020-21/WFH/SBR/ 48

Date: 06 March, 2021

To,

#### **The Managing Director**

Maharashtra State Electricity Distribution Company Ltd., 5<sup>th</sup> Floor, Prakashgad, Plot No. G-9 Bandra (East), Mumbai 400 051

# **Subject:** Prior Approval of Fuel Adjustment Charges (FAC) submission of MSEDCL for the month of September 2020.

**Reference:** 1. MSEDCL's FAC submission dated 03 November, 2020 for prior approval of FAC for the month of September, 2020.

2. Data gaps communicated to MSEDCL vide email dated 11 November, 2020 12 December, 2020 and 14 February, 2021

3.MSEDCL's response to data gaps by email dated 8 December, 2020, 30 December, 2020 and 1 March 2021

Sir,

Upon vetting the FAC calculations for the month of September, 2020 as mentioned in the above reference, the Commission has accorded approval for FAC amount of Rs. 111.37 Crore. However, the said amount is adjusted from the FAC Fund and accordingly the FAC chargeable to consumers is as shown in the table below:

Month	FAC Amount (Rs. Crore)
September, 2020	0 (Zero)

The Commission allows the accumulation of FAC amount of Rs. (12.28) Crore which shall form part of FAC Fund and shall be carried forward to next FAC billing cycle with holding cost as per the Order dated 30 March, 2020 in Case No 322 of 2019. Further, as directed in the said Order, MSEDCL shall maintain the monthly account of FAC Fund and upload it on its website to maintain transparency of FAC Fund and also for information of all the stakeholders.

MSEDCL is directed to file their future FAC submissions taking into consideration data gaps raised in previous months to ensure timely prior approval.

Yours faithfully,

(Dr. Rajendra G. Ambekar) Executive Director, MERC

Encl: Annexure A: Detailed Vetting Report for the month of September, 2020.

# PRIOR APPROVAL FOR FAC CHARGES FOR THE MONTH OF SEPTEMBER, 2020

- **Subject:** Prior Approval of Fuel Adjustment Charges (FAC) submission of MSEDCL for the month of September, 2020.
- **Reference:** MSEDCL's FAC submission dated 03 November, 2020, 08 December, 2020, 30 December 2020 and 1 March, 2021 for prior approval of FAC for the month of September, 2020.

#### 1. FAC submission by MSEDCL:

1.1 MSEDCL has submitted FAC submissions for the month of September, 2020 as referred above. Upon vetting the FAC calculations, taking cognizance of all the submissions furnished by MSEDCL against the data gaps issued, the Commission has accorded prior approval to MSEDCL for FAC amount of Rs. 111.37 Crore. The approved FAC amount shall be adjusted from the FAC Fund and balance amount shall be carried forward to next FAC billing cycle with holding cost as per the Order dated 30 March, 2020 in Case No 322 of 2019 (herein after referred to as "Tariff Order").

#### 2. <u>Background</u>

- 2.1 On 30 March, 2020, the Commission has issued Tariff Order for MSEDCL, (Case No.322 of 2019) for True-up of FY 2017-18 and FY 2018-19, provisional Truing-up for FY 2019-20, and Aggregate Revenue Requirement and Tariff for FY 2020-21 to FY 2024-25. Revised Tariff has been made applicable from 1 April, 2020.
- 2.2 In the Tariff Order, the Commission has stipulated methodology of levying FAC as follows:

"8.5.12 Therefore, using its powers for Removing Difficulty under Regulations 106 of the MYT Regulations, 2019, the Commission is making following changes in the FAC mechanism stipulated under Regulation 10 of MYT Regulations, 2019:

Distribution Licensee shall undertake computation of monthly FAC as per Regulation 10 of the MYT Regulations, 2019 except for treatment to be given to negative FAC as follows:

• Negative FAC amount shall be carried forward to the next FAC billing cycle with holding cost;

- Such carried forward negative FAC shall be adjusted against FAC amount for the next month and balance negative amount shall be carried forward to subsequent month with holding cost;
- Such carry forward of negative FAC shall be continued till the accumulated negative FAC becomes 20% of monthly tariff revenue approved by the Commission in Tariff Order. In case of MSEDCL, such limit shall be Rs. 1500 crore. Any accumulated amount above such limit shall be refunded to consumers through FAC mechanism;
- In case such FAC Fund is yet to be generated or such generated fund is not sufficient to adjust against FAC computed for given month, then Distribution Licensee can levy such amount to the consumers through FAC mechanism.

8.5.13 In order to maintain transparency in management and use of such FAC Fund, the Distribution Licensee shall maintain monthly account of such FAC fund and upload it on its website for information of stakeholders. Further, till date, the Distribution Licensees have been levying FAC up to the prescribed limit of 20% of variable component of tariff without prior approval in accordance with the MYT Regulations, 2015, and submitting the FAC computations on a quarterly basis within 60 days of the close of each quarter, for post facto approval. However, as the Commission has now created a FAC fund as stated above to stabilise the increase in fuel prices and power purchase costs, the Commission has modified the FAC mechanism such that the Distribution Licensees shall submit the FAC computations on a monthly basis for prior approval, irrespective of whether FAC is chargeable in a month or whether some amount is accruing to the Fund on account of negative FAC.

8.5.14 The details of the FAC as per the Regulations, shall be submitted by the 15th of the every month prior to the month on which the FAC is proposed to be levied and the Commission will endeavour to decide on the same within 10 days so that the same can be levied from the 1st of the subsequent month. This prior approval will facilitate the addressing of any difficulties that may arise in giving effect to this fund. All the details will be submitted by the Distribution Licensee as is being done for approval of FAC on post facto basis. Thus the FAC to the consumers shall now be levied with prior approval of the Commission"

- 2.3 Vide its letter dated 20 April, 2020, the Commission communicated the excel formats along with the checklist to file FAC submissions for prior approval to all Distribution Licensees. The Commission also directed all Distribution Licensees to file FAC submissions by 15<sup>th</sup> of every month prior to the month for which the FAC is proposed to be levied for prior approval.
- 2.4 Accordingly, MSEDCL has filed FAC submissions for the month of September, 2020 for prior approval. The Commission has scrutinized the submissions provided by MSEDCL and has also verified the fuel and power purchase bills provided along with its submissions.

# 3. <u>Energy Sales of the Licensee</u>

3.1 The net energy sales within licence area as submitted by MSEDCL in the FAC submission and as approved by the Commission are as shown in the table below:

Consumer Category	Yearly Approved by the Commission (MU)	Monthly Approved (MU)	Actual Sales September 2020 (MU)	
HT Category				
Industry (General)	33,829.98	2,790.17	2,526.66	
Industry (Seasonal)	102.93	1.95	2.57	
Commercial	1,887.38	147.90	97.89	
Railways/Metro/Monorail	80.46	6.18	5.51	
Public Water Works (PWW)	1,996.12	163.27	132.82	
Agricultural - Pumpsets	1,243.85	69.59	49.53	
Agricultural - Others	259.40	20.36	19.01	
Group Housing Society (Residential)	239.68	19.94	17.81	
Public Services - Government	273.16	22.88	21.42	
Public Services - Others	825.16	69.54	54.59	
Electric Vehicle Charging Stations	0.31	0.03	0.03	
MSPGCL Auxiliary	183.74	13.47	8.81	
Other Adjustment	4,842.00	403.50	350.76	
Sub-total (A)	45,764.17	3,728.77	3,287.41	
LT Category				
BPL	45.14	3.30	8.58	
Residential	22,868.98	1,899.91	1,889.72	
Non-Residential	6,934.28	553.45	345.06	
Public Water Works	892.76	70.68	72.00	
AG Metered (Pump-sets)	17,571.05	991.18	1,613.80	
AG Metered (Others)	140.00	10.58	14.39	
Industrial	9,618.89	733.03	735.81	
Street Lights	2,272.61	190.15	160.72	
Public Services	572.79	49.02	39.92	
Electric Vehicle Charging Stations	0.23	0.02	0.03	
Prepaid	-	-	-	
Sub-total (B)	60,916.73	4,501.32	4,880.03	
Total - Metered (C = A+B)	1,06,680.90	8,230.09	8,167.44	
Unmetered Sale (D)	8,783.32	665.29	657.18	
Grand Total(C+D)	1,15,464.22	8,895.38	8,824.61	

\* Other Adjustment is related to Sales to Open Access Consumer (Conventional and Renewable)

# 3.2 For the month of September 2020, it is observed from the actual sales of 8824.61 MU is marginally lower as compared to the approved energy sales of 8895.38 MU.

- 3.3 MSEDCL has submitted the data providing actual billing and estimated billing undertaken for the calculation of total energy consumption for the month of September 2020. As per the data, the 100% of HT billing is undertaken on actual basis whereas under LT category, the billing of about 96% of sales is undertaken as per actual meter readings and balance 4% is still assessed on an estimated basis. The figures do not include the agriculture sales which is on estimated basis for the month of September 2020.
- 3.4 The number of actual and estimated meter readings undertaken by MSEDCL for the month of September, 2020 are as given below:

Sr. No.	Particulars	No. of Meters for which <u>actual</u> meter reading is done either manually or through AMR	No. of Meters for which meter reading are <u>estimated</u> .	Total Meters		
1	HT	22,345	0	22,345		
2	LT	2,07,51,897	29,83,708	2,37,35,605		
	Total	2,07,74,242	29,83,708	2,37,57,950		

3.5 Further, comparison of sales from April to September 20 as compared to last year are as shown below:

Particulars	LT - Residential (MU)	LT Others (MU)	HT (MU)	Ag- Unmetered	Total (MU)
Apr-19	1914	3513	3716	1051	10194
Apr-20	1525	2687	2120	921	7254
May-19	2161	3573	3819	1051	10604
May-20	2075	2559	2802	925	8361
Jun-19	2353	3463	3552	440	9808
Jun-20	2936	2449	3009	773	9167
Jul-19	1975	2956	3389	624	8944
Jul-20	2294	2366	2967	711	8339
Aug-19	1798	2876	3263	624	8561
Aug-20	2003	2408	3090	711	8212
Sep-19	1748	2749	3202	840	8539

Particulars	LT - Residential (MU)	LT Others (MU)	HT (MU)	Ag- Unmetered	Total (MU)	
Sep-20	1890	2990	3287	657	8825	
April – Sep 19	11950	19129	20942	4630	56651	
April - Sep 20	12723	15459	17275	4699	50157	

- 3.6 The Commission observes that sales in September 2020 have increased as compared to September 2019 across all categories except Agriculture.
- 3.7 In response to the details sought by the Commission in respect of submission of estimated Agriculture Sales at the end of Quarter 2 i.e. September 2020, MSEDCL has submitted that FAC data of September 2020 month is provided before completion of billing hence while submitting monthly Energy Balance, estimated AG sale was submitted. However subsequently, in response to data gaps related to load (HP) considered for computing Agriculture Sales, MSEDCL submitted the details of Load (HP)for the period April to September 2020. Based on the submission of MSEDCL, the Consumption/HP has been derived and the details are as given below:

		Metered	I		Unmetere	ed	Total			
Quarter	Sale in MU's			-		Consumption / HP -Units	Sale in MU's	Load (HP)	Consumption / HP -Units	
Q1 -April to June 2021	4848	14387042	337	2619	7084096	370	7467	21471138	348	
Q2 - July to September 2021	3781	14436230	262	2080	7080922	294	5861	21517152	272	
Total	8628	28823272	299	4699	14165018	332	13328	42988289	310	

3.8 Agriculture sales for FY2021-22 approved by the Commission in the Tariff Order of MSEDCL are as given below:

		Metereo	1		Unmetere	ed	Total			
FY2021-22	Sale in MU's	Load Consumption (HP) / HP -Units		Sale in MU'sLoad (HP)Consumption / HP -Units		Sale in MU'sLoad (HP)		Consumption / HP - Units		
Approved in MYT Order	17564	14691223	299	8783	7422999	296	26347	22114222	298	

3.9 It is observed that Consumption/HP considered by MSEDCL for Metered Agriculture Consumers is marginally higher than the figures as approved by the Commission in the Tariff Order, whereas Consumption/HP for Unmetered Agriculture Consumers is substantially higher than approved. The Commission is of the view that the said sales being of unmetered connections and are estimated by MSEDCL, the Commission is of the view that such estimated sales need to be restricted to approved sales in Tariff Order for FAC approval and any deviation from the approved sales will be considered by the Commission at the time of MTR proceedings based on the prudence check and justification provided by MSEDCL. Accordingly, the Commission has restricted the Agriculture sales in line with the approved sales (Consumption/HP) as given below and also considered the same for computation of Distribution Loss.

		Metered			Unmetere	ed	Total			
Period	Sale in MU's	Load (HP) Consumption / HP - Units		Sale in MU'sLoad (HP)Consumption / HP - Units		Consumption / HP - Units	Sale in MU'sLoad (HP)C		Consumption / HP -Units	
April to September										
2021	8615	28823272	299	4190	14165018	296	12805	42988289	298	

#### 4. <u>Power Purchase Details</u>

- 4.1 The Commission has approved following sources in the Tariff Order for power purchase by MSEDCL.
  - a) MSPGCL
  - b) Central Generating Stations i.e. NTPC, TAPP etc
  - c) IPPs i.e. JSW, Adani Power, Mundra UMPP, Emco, Rattan India and Sai Wardha
  - d) Renewable Energy (Solar and Non-Solar)

In addition to the aforesaid, MSEDCL procures power in short term, though the said source is not approved by the Commission, in case of any shortfall of approved sources or to optimize the power purchase cost. Also, there may be some variation in real time (unscheduled interchange) which will be settled through Balancing and Settlement Mechanism approved by the Commission.

4.1 Summary of Power Purchase from MSEDCL is as follows:

Sr. No.	Particular	Compliance
1	Sources of approved	MSEDCL has purchased power from approved sources. In
	Power Purchase	addition, power is procured on power exchange to optimise the
		power purchase cost
2	Merit Order	MSEDCL has followed merit order for scheduling of power and
	Dispatch	preference was given to cheapest power.
3	Fuel Utilization	Usage of coal is not as per approved Fuel Utilisation Plan
	Plan	(Detailed Explanation given below – Para 5.10 to para 5.15)
4	Pool Imbalance	No Imbalance pool quantum is computed by MSEDCL for
		September 2020.
5	Sale of Surplus	MSEDCL has sold 20.95 MUs at Rs.3.64/kWh thereby
	Power	benefitting its consumers.
6	Power Purchase	Actual Power Purchase is 9,914.9 MUs as against approved
		10,717.03 MUs due to lower sales.

Sr. No.	Particular		Co	mpliance						
7	Source wise Power Purchase	Source Name	Approved (MU)	Actual (MU)	Proportion of each Source in Actual Purchase					
		MSPGCL	4,329.56	3,882.25	39%					
		NTPC	2,228.48	2,592.28	26%					
		IPP	2,420.43	2,014.25	20%					
		Renewable	1,213.00	763.94	8%					
		Must Run	525.57	541.48	5%					
		Short Term	0.00	141.64	1%					
		Sale of Power	0.00	20.95	0%					
		Total	10,717.03	9,914.90	100%					
8	Power Purchase: a. Section 62 of Electricity Act, 2003	<ul> <li>A. MSPGCL</li> <li>As part of verification of fixed cost claimed by MSEDCL, the same has been verified from the MYT Order in Case No. 322 of 2019 and invoice submitted by MSEDCL</li> <li>As part of verification of energy charges claimed by MSEDCL, verification of operational parameters, fuel cost, GCV etc. vis-à-vis the MYT Order/Tariff Regulations is carried out and invoice submitted by MSEDCL</li> <li>B. CGS- NTPC etc</li> </ul>								
	b. Section 63 of Electricity Act, 2003 - IPPs	Cost and MUs a		-

10	Short Term Power Purchase	submitted by N	ASEDCL. Al	l the power pure	ptember, 2020 are chase quantum and been considered for					

4.2 The following table show the variation in average power purchase cost (Rs/kWh) for the month of September, 2020 submitted by MSEDCL as compared to average power purchase cost approved in Tariff Order:

	Tariff Or	der Dated 3	0.03.2020	Actual fo	or Septembe	r 2020 as		Variation		
	Approved	l for Septen	nber 2020	submi	itted by MS	EDCL				
Particulars	Quantum	PP Cost	Average Power Purchase Cost	Quantum	PP Cost	Average Power Purchase Cost	Quantum	PP Cost	Average Power Purchase Cost	
	MU	Rs. Crore	Rs/kWh	MU Rs. Crore		Rs/kWh	MU	Rs. Crore	Rs/kWh	
MSPGCL – Thermal	4,058.61	1,748.40	4.31	3,639.48	1,585.36	4.36	(419.12)	(163.04)	0.05	
MSPGCL- Hydro (including Lease Rent)	270.95	70.33	2.60	242.77	2.77 68.93 2.84		(28.18)	(1.40)	0.24	
NTPC	2,228.48	854.17	3.83	2,592.28	964.51	3.72	363.80	110.34	(0.11)	
1.JSW	158.98	57.59	3.62	181.09	55.22	3.05	22.11	(2.38)	(0.57)	
2.Mundra UMPP	423.94	125.13	2.95	462.48	128.39	2.78	38.54	3.27	(0.18)	
3.Adani Power	1,724.91	646.69	3.75	1,244.10 528.97		4.25	(480.81)	(117.72)	0.50	
4.Emco	112.61	51.02	4.53	126.58 55.33		4.37	13.98	4.31	(0.16)	
5.Rattan India	0.00	57.71	-	-	60.16	-	- 2.45		-	
6. Sai Wardha	0.00	0.00	-	-	20.27 -		- 20.27		-	
TotalIPPs(1 to 6)	2,420.43	938.13	3.88	2,014.25	848.34	4.21	(406.18)	(89.80)	0.34	
7.Non-Solar	654.00	322.65	4.93	428.97	191.51	4.46	(225.03)	(131.14)	(0.47)	
8.Solar	559.00	202.24	3.62	334.97	137.21	4.10	(224.03)	(65.03)	0.48	
Renewable Energy including REC (7 to 8)	1,213.00	535.73	4.42	763.94	328.72	4.30	(449.06)	(207.01)	(0.11)	
Must Run - KAPP, TAPP, Dodson etc	525.57	139.81	2.66	541.48	148.05	2.73	15.92	8.24	0.07	
Short Term	0.00	0.00	-	141.64	41.34	2.92	141.64	41.34	2.92	
Sale of Power	0.00	0.00	-	20.95	7.62	3.64	20.95	7.62	3.64	
PGCIL	0.00	276.79	-	-	355.54		-	78.76	5 -	
Total	10,717.03	4,563.36	4.26	9,914.90	4,333.17	4.37	(802.14)	(230.18)	0.11	

4.3 Thus, for the month of September 2020, total variation in power purchase cost is (Rs. 230.18 Crore), out of which (Rs. 341.55 Crore) was on account of lower quantum of power purchase (802.14 MU) and Rs. 111.37 Crore was on account of higher rate of average power purchase by Rs. 0.11/kWh. FAC mechanism allows only impact of variation in power purchase rate to be passed through as FAC rate over and above approved tariff.

4.4 The detailed explanation in respect of approval of cost of power purchase of each of the source mentioned in the above table is given in subsequent paragraphs.

## 5. <u>Power Purchase Cost</u>

- 5.1 The Commission has sought detailed bills/invoices for all of the power purchase sources in order to verify the claim of MSEDCL with regards to average power purchase cost for the month of September, 2020. The Commission has verified the Net Purchase, Variable Cost, Fixed Charge and the Power Purchase Cost from the relevant bills/invoices received for all purchasing sources. MSEDCL has purchased power from approved sources as per the Tariff Order. Further, it was observed that MSEDCL has purchased power from Power Exchange to take advantage of the lower prices prevailing in the market by giving zero schedule to generating stations having higher variable cost and have benefitted the consumers by lowering the average power purchase cost.
- 5.2 In view of lower demand and lower prices prevailing on Power Exchange, it was observed that Zero Schedule was given to many State Generating Stations such as Bhusawal-3, Koradi 6-7 and IPPs (Rattan India and Sai Wardha) for the entire month and partially to Parli and Bhusawal 4 and IPP (APML) due to higher variable cost in MOD to optimise the power purchase cost.
- 5.3 The Commission notes that CGS stations having lower variable cost were dispatched almost to the extent of availability declared by the generator.
- 5.4 The Commission has also verified the PLF% and MOD rates of all the operational State Generating Stations and IPPs and has found that units having lower rates in MOD had higher PLF. The graph showing the comparison of Variable Cost in MoD Stack and monthly Plant Availability Factor and PLF for SGS and IPPs is given below:

SGS/IPPs Stations are considered for comparison and MOD Rate considered is as applicable from 12 September, 2020 to 31 September, 2020.

5.5 The Commission notes that MSEDCL has followed the Merit Order Dispatch (MOD) principle. As seen from the aforesaid graph, it appears that APML-440 MW having lower variable cost in MOD has lower PLF% inspite of declaring Availability than Bhusawal 4&5 having higher variable cost. The Commission notes that this is due to the fact the MOD rates declared by MSLDC for the month of September are different for two slots i.e. 1 September to 11 September and 12 September to 31 September. The aforesaid graphical representation is based on PLF% on a monthly basis, where as MOD rated vary in two time slots. MOD Rate for APML-440 MW was Rs 3.06/kWh and Bhusawal was Rs 2.685/kWh for 1-11 September. Accordingly, APML-440 MW was under Zero Schedule and Bhusawal unit was being despatched for the said period and from 12 September onwards, the rate of APML (Rs 2.793/kWh) was marginally lower than Bhusawal (Rs 2.799/kWh).

## **MSPGCL:**

5.6 The Commission has observed that MSEDCL has purchased 3639.48 MUs from MSPGCL Thermal and Gas Stations. It was observed that MSEDCL has not purchased any energy from generating station of MSPGCL not included in MoD stack approved by the Commission in the Tariff Order except for Parli 6-7 and Parli 8 which was taken into service in view of lower variable cost in MOD (Parli 6-7 is Rs. 4.00/kWh, Parli 8 is Rs. 3.83/kWh) as compared to which was considered in MOD stack approved in the MYT Order (Parli 6-7 are Rs. 3.01/kWh & Rs. 2.98/kWh, Parli 8 are Rs. 2.95/kWh for 1-11 September and 12-30 September respectively).

5.7 The total overall generation was lower during the month leading to lower PLF mainly due to lower system demand. Even though the PLF for the thermal generating units was lower for the aforesaid month, the monthly fixed cost was payable in line with MYT Regulations, 2019. Accordingly, MSEDCL has considered the fixed cost as per the order of the Commission. Lower PLF has resulted into fixed cost being spread over lower net generation thereby increasing average power purchase price from these Units and thus impacting the APPC. The comparison of Actual and Approved Fixed and Variable Cost of MSPGCL Thermal/Gas units as shown in the table below shows the impact of fixed cost due to lower actual generation:

		Approved for September 2020						Actual for September 2020						Variations			
Particular	Quantum	VC	VC	FC	FC	APP C	Quantu m	VC	VC	FC	FC	AP PC	Quantum	VC	FC	APP C	
S	MU	Rs./k Wh	Rs. Crore	Rs. Crore	Rs./k Wh	Rs./k Wh	MU	Rs./kWh	Rs. Crore	Rs. Crore	Rs./k Wh	Rs./ kW h	MU	Rs./k Wh	Rs./k Wh	Rs./k Wh	
MSPGCL – Thermal	4,058.61	2.65	1,077.08	671.33	1.65	4.31	3,639.48	2.49	907.68	677.68	1.86	4.36	(419.12)	(0.16)	0.21	0.05	

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

- 5.8 Further, the Commission has verified that the payment of fixed cost for all the Thermal/Gas Units as well as Hydro Units has been considered as per invoice raised by MSPGCL except for Koradi 6-7. In response to query raised by the Commission, MSEDCL submitted that it has recalculated the Availability of Koradi 6-7 as per Regulation 35.8 of State Grid Code Regulation, 2020 and consequently, fixed charges of Rs 12.31 Crore have been deducted. Accordingly, the fixed cost is considered as submitted by MSEDCL for FAC computation.
- 5.9 The Commission in its Order dated 30 March, 2020 in Case No 296 of 2019 has approved Fuel Utilisation Plan of MSPGCL. The Commission in the said Order has given in principle approval for the various measures proposed by MSPGCL including coal beneficiation and procurement of imported coal to meet the requirement of coal for maintaining normative availability and accordingly approved the variable/energy charges for the MSPGCL Stations.
- 5.10 MSPGCL has subsequently filed Case No 97 of 2020 seeking deviation/relaxation in the Fuel Utilisation Plan (FUP) approved by the Commission and regarding need for seeking prior consent from beneficiary if energy charges as per Fuel Surcharge Adjustment is higher than the approved charge by margin of 5%.
- 5.11 The Commission in its Order in Case No 97 of 2020 has not allowed relaxation as sought for by MSPGCL and in-fact directed MSPGCL to work on various options to implement the approved FUP and utilise opportunities of sourcing cheaper domestic coal so as to reduce the power purchase cost to least possible level. The relevant extract of the Order is reproduced herein below for ready reference:

"15. As explained earlier in this Order, the Commission has deliberately incorporated provision of prior consent with specific objective that Distribution Licensee, in the present case MSEDCL, is aware of the energy charge that is likely to be levied by any particular generator so that appropriate decision in respect of power purchase from alternate cheaper sources can be explored so as to reduce its power purchase cost for the ultimate benefit of the consumers. In case the relaxation as sought by MSPGCL is allowed, it may unnecessarily burden MSEDCL's consumers and the purpose of cost optimization and reduction in FAC for which it was made mandatory will not be realised and relevant Provisions of MYT Regulations, 2019 will be rendered otiose. Hence, the Commission is not inclined to grant relaxation as sought by MSPGCL

16. Further, the Commission is of the opinion that FY 2020-21 has just started. Ten months are still available with MSPGCL in FY 2020-21 to abide by the FUP and to take corrective proactive actions. The Commission notes here the specific measures undertaken by NTPC in reducing the Energy Charges for some of its stations and advises MSPGCL to study the same for adoption. Further, as admitted by MSPGCL in its petition that except for few Stations viz. Nashik and Koradi, it will be able to implement FUP and in fact energy charge would be lower than that approved in MYT Order. Therefore, merely, on the experience of two months, seeking revision of FUP is not proper. MSPGCL may work on the various options available to implement the approved FUP and utilize opportunities of sourcing cheaper domestic coal provided by Government of India including the concessions proposed by Ministry of Power (MoP) in view of the pandemic situation, so as to reduce the power purchase cost to least possible level.

17. During the hearing, MSPGCL has stated that accumulated coal stock is creating difficulties in sourcing new coal. In the opinion of the Commission with relaxation in lock down, as energy demand increases, accumulated coal stock will be utilized and hence MSPGCL should plan smartly for further coal procurement. MSPGCL should also ensure that cheapest coal is made available to efficient generator so that least possible cost of generation is achieved."

5.12 The Commission notes that while approving the FUP, the washed coal and imported coal was required to be used in all the MSPGCL stations except Paras and Parli Stations. However, as mentioned above, MSPGCL is yet to tie up for washed coal as well as imported coal and only domestic coal is being used at the generating stations. This is not in consonance with the FUP approved by the Commission. MSPGCL has submitted in Case No 97 of 2020 that energy charges would be lower for all the stations except for Nashik and Koradi. Based on provisional FAC bill raised by MSPGCL for the month of September 2020, comparison of actual energy charge based on provisional bill and approved by the Commission in the Tariff Order shows that actual energy charge only for Koradi 8-10 exceeds more than 5%. MSEDCL has submitted that as per approved Fuel Utilization Plan, usage of washed coal is being procured by MSPGCL as the finalization of tender for the same is pending. Also, the coal available in stock is of lower GCV. This has resulted in increase in variable cost for units at Koradi.

Further analysis for increase in variable cost of Koradi 8-10 and comparison with the approved numbers in the Tariff Order is as given below:

Particulars	Approved in Tariff Order	Sep-20 Actual
	Energy Charges (Rs./kWh)	
Net Energy Charges	2.284	2.491
GCV (As Received) -	kCal/Kg (limited to 525 kCal/k	g loss as per Regulations)
WCL	3,492	3,606
WCL Beneficiation	4,092	
MCL	3,127	3,052
MCL Beneficiation	3,727	
SECL	3,329	3,959
SECL Beneficiation	3,929	
SCCL	3,090	3,441
Imported	3,100	
Weighted Average	3,615	3,514
	GCV (As Fired) - kCal/Kg	
Weighted Average	3,495	3,433
Pro	portion of usage of coal Mine w	vise (%)
WCL	53.44%	43.56%
WCL Beneficiation	14.18%	0.00%
MCL	0.00%	20.27%
MCL Beneficiation	0.00%	0.00%
SECL	0.00%	15.48%
SECL Beneficiation	3.54%	0.00%
SCCL	5.65%	20.69%
MOU Coal	14.14%	0.00%
Imported	9.05%	0.00%
	Landed Price of Coal (Rs/M)	<b>[</b> )
Domestic	2,939	3,583
Washed	2,939	0
Imported	6,880	0
Weighted Average	3,335	3,583
	Yield of Coal (Rs./kCal)	
Overall weightage Yield of Coal	0.95	1.04

As seen from the aforesaid table, Rs/kCal is higher than approved by the Commission in the tariff order leading to higher energy charge than approved in the tariff order.

5.13 MSEDCL in response to data gaps has submitted that as per Regulation 50.7 of MYT Regulations, 2019, MSPGCL has intimated MSEDCL and sought consent for scheduling units at Koradi and Nashik where energy charge is likely to exceed by 5% than approved by the Commission in the Tariff Order. MSEDCL in its response to the said letter had provided conditional consent and asked MSPGCL to take all possible measures to bring the energy charge within 5% of approved rate. The Commission notes that for the month

of September 2020, energy charge of only Koradi 8-10 Unit is beyond 5% of the approved charge for the reasons mentioned in the above para 5.12.

Power Station	Approved Energy Charge Rs/kWh	Actual Energy Charge Rs/kWh	Difference Rs/kWh	Difference %
Bhusawal Unit 03	3.915	-	-	
Bhusawal Unit 04 & 05	3.267	2.783	-0.484	-14.81%
Khaperkheda Unit 1 to 4	2.808	2.726	-0.082	-2.92%
Khaperkheda Unit 05	2.458	2.396	-0.062	-2.52%
Nashik TPS	3.394	-	-	-
Chandrapur Unit 03 to 07	2.539	2.454	-0.085	-3.35%
Chandrapur Unit 08 and 09	2.453	2.309	-0.144	-5.87%
Paras Unit 03 and 04	2.989	2.295	-0.694	-23.22%
Parli Unit 06 and 07	4.000	3.158	-0.842	-21.05%
Parli Unit 08	3.830	3.141	-0.689	-17.99%
Koradi Unit 06 and 07	3.136	-	-	-
Koradi Unit 08,09,10	2.284	2.491	0.207	9.06%
GTPS Uran	2.683	1.762	-0.921	-34.33%

5.14 The comparison of Approved and Actual Energy Charge (including FAC) is as given below:

- 5.15 Further, in response to query raised by the Commission in respect of steps taken to implement the approved FUP, MSEDCL submitted that it has informed generators to strictly follow FUP as approved by the Commission. The Commission notes that all the generating station except Koradi 8-10 Unit is having rate lower than approved by the Commission in the Tariff Order. It is also noted that MSPGCL has been able to lower the energy charge of Koradi from Rs 2.95/kWh in April 2020 to Rs 2.49/kWh in September 2020. However, it is essential that MSPGCL takes adequate steps, appropriate action and work on various options to implement the approved FUP to reduce the fuel cost.
- 5.16 As mentioned herein above, MSPGCL has used domestic raw coal for its generation. MSPGCL had also raised issue in respect of consideration of GCV of Coal (As Billed and As Received) in absence of timely availability of CIMFR reports. The Commission in its Order in Case No 97 of 2020 has held that MSPGCL may consider provisional GCV which can be either based on mid-point of declared grade GCV or GCV measured by MSPGCL's Testing Team or adopt any other better approach in consultation with MSEDCL for provisional billing. Accordingly, MSPGCL has raised provisional FAC bill considering GCV as per the methodology submitted by MSPGCL in Case No 97 of 2020 as given below:
  - a. GCV- As Billed: Consideration of certified loading end GCV data wherever available and where certified data is not available, use mid-point of declared grade GCV.

- b. GCV As Received: GCV is considered based on the results available at each Station from their respective Station Laboratory
- 5.17 It was observed that methodology for computation of cost of consumption of coal considered by MSPGCL varies for each station. The Commission in its approval of FAC for the month of July 2020 have directed MSPGCL to raise the FAC bill from October 2020 onwards as per the weighted average method of computation of coal cost. The Commission expects MSPGCL to abide and follow the directions from October 2020.
- 5.18 MSPGCL has undertaken Case-4 bidding and accordingly entered into contract with Dhariwal Industries Ltd (DIL) at Rs. 2.889/kWh for supply of 185 MW net sent out in lieu of power from one unit of at Nashik (Rs. 3.394/kWh) by transfer of corresponding linkage coal quantity to DIL unit for the period 1 November 2019 to 31 October 2020. Further, for the month of September 2020, DIL has offered to revise the rate downwards Rs 2.684/kWh from 1-8 September 2020, Rs 2.889/kWh for 9-17 September, Rs 2.798/kWh for 18-23 September and Rs 2.792/kWh from 24-30 September as against discovered rate of Rs 2.889/kWh. Accordingly, MSPGCL has accepted the revised rates and raised the invoice as per the rates mentioned herein for power supplied in the month of September 2020 to MSEDCL. The Commission has accordingly considered the total purchase of 112.84 MUs for Rs 31.46 Crore at Rs 2.79/kWh.
- 5.19 The Commission has verified that actual quantum of power purchase and cost from the detailed summary bills/invoices submitted by MSEDCL and found to be in order.
- 5.20 Considering the overall cost of MSPGCL thermal/gas stations, the average power purchase cost is Rs. 4.36/kWh as against Rs. 4.31/kWh approved in the Tariff Order. The higher average power purchase cost is mainly due to fixed cost being distributed over lower generating units.
- 5.21 Variation in power purchase expenses from MSPGCL can be divided on account of change in quantum and per unit rate as follows:

	Increase in Expenses for	power purchase from MSF	PGCL (Rs. Crore)
Month	On Account of change	On Account of change	
IVIOIIUI	Quantum of Power	in Per Unit rate of	Total
	Purchase	Power Purchase	
September	(180.55)	17.51	(163.04)
2020			

Out of above, variation on account of increased per unit rate is only considered for FAC computation.

# NTPC:

5.22 MSEDCL has purchased total 2592.88 MUs of power from NTPC's stations as compared to approved MoD stack of 2228.48 MUs during the month of September 2020. It was

observed that certain stations of NTPC viz: Mauda, Solapur, Gadarwara though not part of MOD stack approved by the Commission but were despatched as being CGS and MSEDCL having share in the said Plants, it has to schedule the power when the same was requested by the other states and MOD rates were also lower than approved rates for the said plants.

5.23 The Table below shows the variation in power purchase in terms of per unit variable charge, per unit fixed charge and average power purchase cost for NTPC's generating stations for September 2020.

		Appr	oved for Sep	otember 2020	)			Actual		Variations						
Particul	Quantum	VC	VC	FC	FC	APP C	Quantu m	VC	VC	FC	FC	AP PC	Quantum	VC	FC	APPC
ars	MU	Rs./k Wh	Rs. Crore	Rs. Crore	Rs./k Wh	Rs./k Wh	MU	Rs./kWh	Rs. Crore	Rs. Crore	Rs./k Wh	Rs./ kW h	MU	Rs./k Wh	Rs./k Wh	Rs./kW h
NTPC	2,228.48	1.90	422.35	431.82	1.94	3.83	2,592.28	1.82	471.28	493.23	1.90	3.72	363.80	(0.08)	(0.04)	(0.11)

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

- 5.24 In view of the prevailing conditions of Covid-19 pandemic in the Country and the difficulties faced by various sections of society, NTPC has given rebate of Rs. 167.97 Crore on capacity charges billed for the lockdown period and deferred the Capacity charges amounting to Rs. 257.01 Crore payable without interest in three equal monthly instalments of Rs. 85.67 Crore in July, August and September 2020. Accordingly, NTPC has passed on total relief of Rs. 424.98 Crore. The said amount was considered by MSEDCL while computing the FAC for April 2020. However, the third and last instalment of Rs 85.67 Crore of the deferment done during April 2020 is being claimed by NTPC and also considered by MSEDCL in the month of September 2020. The Commission has considered the same in the FAC computation of September 2020.
- 5.25 The Commission has verified that actual quantum of power purchase and cost from the detailed summary bills/invoices submitted by MSEDCL and found to be in order and accordingly considered the same in FAC computation.
- 5.26 Variation in power purchase expenses from NTPC can be divided into on account of change in quantum and per unit rate as follows:

	Increase in Expenses	for power purchase from N	NTPC (Rs. Crore)
Month	On Account of change		
WIOIIIII	Quantum of Power	increased Per Unit rate	Total
	Purchase	of Power Purchase	
September	139.44	(29.10)	110.34
2020			

Out of above, variation on account of increased per unit rate is only considered for FAC computation.

## IPPs

- 5.27 MSEDCL has long term PPA's with IPP's viz: JSW, CGPL Mundra, APML, Emco and Rattan India. The said PPAs are approved by the Commission and power availability from the said sources is considered as per Tariff Order issued by the Commission. Further, MSEDCL has signed PPA with Sai Wardha Power Generation Ltd (SWPGL) for 240 MW as per the Order dated 15 June 2020 in Case No 91 of 2020. SWPGL started delivering 240 MW power to MSEDCL from 5 July 2020.
- 5.28 The Commission notes that in view of lower demand and high variable charge of Rattan India, APML (partially), and Sai Wardha MSEDCL has issued Zero Schedule during the month and purchased power from Power Exchange to optimize the power purchase cost.
- 5.29 During scrutiny of the invoices submitted by MSEDCL it was observed that there were differences in the other charges related to Change in Law as considered in FAC computations. The Commission sought clarifications on the same along with reconciliation and additional bills, if any. MSEDCL submitted the reconciliation and clarified that the aforesaid differences are mainly on account of Change in Law (CIL) claim by IPPs in addition to monthly energy bills during the respective period.
- 5.30 Change in Law (CIL) events in respect of IPPs are related to imposition of GST compensation cess, change in royalty, custom duty, change in NCDP, shortfall in domestic coal etc. These Change in Law events have been approved by the respective Commission's Order, as the case may be, under the provisions of respective PPAs. MSEDCL has submitted the CIL invoices for the concerned period. Further, while scrutinizing the CIL bills it was observed that the amount shown in CIL bills/invoices were not matching against the respective amount considered in FAC computation. In fact, the amounts considered in FAC calculations were observed to be lesser than that of CIL bills/invoices. In response to query sought, MSEDCL clarified the Change in Law claims raised by the generators are according to their technical parameters, whereas MSEDCL works out the CIL claim amount based on normative / bid parameters. These parameters include SHR of power plant, GCV of coal, etc. which have impact of coal consumption. Therefore, there is difference in CIL amount claimed by generator and that worked out by MSEDCL. MSEDCL has submitted the detailed reconciliation of CIL, as summarised in Table below:

IPP	As per IPP - Rs Cr	As per MSEDCL -Rs Cr
APML 125	2.36	2.21
APML 1320	14.34	13.50
APML 1200	22.69	21.24
APML 440	1.72	1.61
RIPL 450	-	_
RIPL 750	-	_
CGPL	8.47	8.08
GMR	5.69	4.54

IPP	As per IPP - Rs Cr	As per MSEDCL -Rs Cr
JSW	4.67	4.21
Total	59.95	55.39

5.31 Thus, on an overall basis considering the above impact the average power purchase cost from IPPs stands at Rs. 4.21/kWh as compared to monthly approved rate of Rs. 3.88/kWh for the month of September 2020. The said cost is being considered for the FAC computation based on the scrutiny of invoices submitted by MSEDCL. The variation is mainly due to fixed cost paid to Rattan India, APML and Sai Wardha without any considerable generation. The Table below shows the variation in power purchase in terms of per unit variable charge, per unit fixed charge and average power purchase cost for IPPs for September 2020.

		Appr	oved for Sep	otember 2020	0			Actual	for Septemb	oer 2020			Variations

to 6)	2,420.43	2.40	581.58	356.55	1.47	3.88	2,014.25	2.37	478.16	370.17	1.84	4.21	(406.18)	(0.03)	0.36	0.34

Variable charge inclusive of other charges, CIL etc.

5.32 Variation in power purchase expenses from IPPs can be divided into increased on account of change in quantum and per unit rate as follows:

	Increase in Expenses	s for power purchase from	IPP (Rs. Crore)
Month	On Account of change	On Account of	
Within	Quantum of Power	increased Per Unit rate	Total
	Purchase	of Power Purchase	
September	(157.43)	67.63	(89.89)
2020			

Out of above, variation on account of increased per unit rate is only considered for FAC computation.

#### **Short Term Power Purchase**

5.33 MSEDCL has purchased 141.64 MUs at average rate of Rs. 2.92/kWh from Power Exchange. The Commission notes that it has not approved any short-term purchase in the Tariff Order. However, MSEDCL has purchased short term power as the said rate is lower

than the generating units which were under Zero Schedule thereby benefitting the consumers. The Commission has verified the details of power purchase and cost of power from the Daily Obligation Summary Report issued by Power Exchange and accordingly considered the said purchase in FAC computation.

#### **Must-Run Sources**

- 5.34 The sources of Must Run Stations include KAPP, TAPP 1&2, TAPP 3&4, SSP, Pench, Dodson I and Dodson II, Renewable Energy and MSPGCL Hydro (including Ghatghar) etc.
- 5.35 A detailed comparison of approved against actual purchase from Must Run Stations is shown in Table below:

		Appr	oved for Sep	tember 2020	)			Actual	for Septemb	oer 2020				Variati	ions	
Particul	Quantum	VC	VC	FC	FC	APP C	Quantu m	VC	VC	FC	FC	AP PC	Quantum	VC	FC	APPC

2.Solar	559.00	3.62	202.24	-	-	3.62	334.97	4.10	137.21	-	-	4.10	(224.03)	0.48	-	0.48
Renewa ble Energy includin g REC (1 to 2)	1,213.00	4.33	524.89	10.83	0.09	4.42	763.94	4.30	328.72	-	-	4.30	(449.06)	(0.02)	(0.09)	(0.11)
Others- KAPP, TAPP, Dodson etc	525.57	2.65	139.05	0.76	0.01	2.66	541.48	2.72	147.28	0.76	0.01	2.73	15.92	0.07	(0.00)	0.07

\*Variable Cost for Hydro Power is approved in MSPGCL Order whereas total cost is considered under Fixed Cost in the Tariff Order of MSEDCL.

- 5.36 As seen from the aforesaid table, MSEDCL has purchased 242.77 MUs of Hydro Power as per variable cost approved by the Commission. This being the cheapest source of power helps in reduction of overall average cost of power purchase. The Koyna generation works on the principle of water year (1st June to 30 May) and hence the available water is used for the peak requirement based on the requirement of MSEDCL. It is observed that hydro purchase is lower than 270 MUs approved by the Commission. The Commission is of the view that MSEDCL, based on its operational requirement, should schedule the hydro power to the extent possible so as to reduce the overall power purchase cost.
- 5.37 It is observed that Solar and Non-Solar energy purchased in September 2020 i.e. 763.94 MUs was lower than approved i.e. 1213 MUs by the Commission in the Tariff order.

MSEDCL submitted that there is lower generation due to low wind and end of bagasse season. MSEDCL has not purchased any REC's in the month of September 2020. The Commission has considered the renewable purchase as per FOCA summary of renewable purchase details submitted by MSEDCL and invoices of power purchased from SECI, NVVN and other IPPs.

#### **ISTS Charges - PGCIL**

5.38 As per Regulation 10 of MYT Regulations, 2019, any variation in Inter-State Transmission Charges shall be pass through under FAC component of Z-factor charge as an adjustment in Tariff on monthly basis. Accordingly, the ISTS charges paid by MSEDCL to PGCIL are considered under FAC computation. The Commission has considered the amount of Rs. 355.54 Crore towards ISTS charges payable to payable to PGCIL as against Rs. 276.79 Crore approved in the Tariff Order towards FAC computation. The amount payable is higher as Rs. 70.82 Crore is paid towards PoC 3 bill for the period Apr-20 to Jun-20 as per CERC (sharing of Inter-state transmission charges & Losses) Regulations 2010 as per invoice raised by PGCIL.

#### Sale of Power

- 5.39 MSEDCL has done sale of surplus power to the extent of 20.95 MUs during the month at Rs. 3.64/kWh. With such a sale of power MSEDCL has earned revenue of Rs. 7.62 Crore.
- 5.40 It is observed that the out of total sale of 20.95 MUs, 5.93 MUs were sold at Rs 4.89/kWh whereas 15.02 MUs were sold on IEX at Rs 3.14/kWh. MSEDCL submitted that sale realisation was more than that of variable cost of generator running above technical minimum operating in MOD. Accordingly, the overall realisation in respect of sale of power is Rs. 3.64/kWh has benefitted the consumers. Hence, the Commission has considered the actual quantum and revenue against surplus sale.

#### **Approved Cost of Power Purchase**

5.41 In view of the above, the overall cost approved in the Tariff Order and actual for the month of September, 2020 considered by the Commission is as shown below:

FC				Variations			
	FC	FC AP PC	Quantum	VC	FC	APPC

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

- 5.42 To summarise, MSEDCL has optimised its overall power purchase cost by taking following actions:
  - (a) Zero Schedule to MSPGCL stations/IPPs having high variable cost from 01 September, 2020 to 31 September, 2020
  - (b) Lowest Cost Generators in MoD being run at higher PLF.
  - (c) Purchasing cheaper power from Power Exchange at Rs 2.92/kWh which is lower than Variable Cost of Units under shutdown.
- 5.43 In view of Zero Schedule given to multiple units of contracted generation, fixed cost payable to such generators being spread over lesser units being purchased has impacted the overall average power purchase cost. Further, the recovery of deferred instalment of Rs 85.67 Crore and additional amount of Rs 70.82 Crore payable to PGCIL for April to June 20 as per invoice raised by PGCIL has increased the overall cost.
- 5.44 Considering the above, the Commission allows the average power purchase cost of Rs.4.37/kWh for the month of September, 2020 as against Rs. 4.26/kWh approved in the Tariff Order.

#### 6. FAC on account of fuel and power purchase cost (F)

6.1 The Commission has worked out the average power purchase cost for the month of September, 2020 as shown in above table. The same has been compared with the average power purchase cost approved by the Commission in Tariff Order dated 30 March, 2020

and accordingly arrived at differential per unit rate at which  $Z_{FAC}$  is to be passed on to the consumers.

6.2 The following table shows the  $Z_{FAC}$  worked out by the Commission on account of difference in fuel and power purchase cost for the month of September, 2020.

S. No.	Particulars	Units	September 2020
1	Average power purchase cost approved by the Commission	Rs./kWh	4.26
2	Actual average power purchase cost	Rs./kWh	4.37
3	Change in average power purchase cost (=2 -1)	Rs./kWh	0.11
4	Net Power Purchase	MU	9,914.90
5	Change in fuel and power purchase cost (=3 x 4/10)	<b>Rs.</b> Crore	111.37

### 7. <u>Adjustment for over recovery/under recovery (B)</u>

7.1 The adjustment for over recovery/under recovery has to be done for the (n-4) month as per provisions of MYT Regulations, 2019. As Nil FAC levied for the month of May 2020, there would not be any adjustment factor for May 2020 while computing the allowable FAC.

#### 8. <u>Carrying Cost for over recovery/under recovery (B)</u>

8.1 As explained in the above paragraph in absence of any adjustment factor for previous month, there is no carrying cost which is to be allowed in FAC for the month of September 2020.

#### 9. <u>Disallowance due to excess Distribution Loss</u>

- 9.1 Regulation 10.8 of MYT Regulations, 2019 provides for FAC amount to be reduced in case the actual distribution loss for the month exceeds the approved distribution loss. The relevant extract is reproduced as follows.
  - "10.8 The total  $Z_{FAC}$  recoverable as per the formula specified above shall be recovered from the actual sales in terms of "Rupees per kilowatt-hour":

Provided that, in case of unmetered consumers, the  $Z_{FAC}$  shall be recoverable based on estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

Provided further that, where the actual annual sliding distribution losses of the Distribution Licensee exceed the level approved by the Commission, the amount of

 $Z_{FAC}$  corresponding to the excess distribution losses (in kWh terms) shall be deducted from the total  $Z_{FAC}$  recoverable"

S. N	Particulars	Units	Approved in Tariff Order	Standalone for September 2020	Actual upto September 2020
1	Net Energy Input at Distribution Voltage	MU	123451.49	8,919.28	54,503.82
2	MSEDCL Metered Sales (excluding sales at EHV level)	MU	92427.90	7,377.12*	40,879.70
3	Estimated Consumption of unmetered Sales	MU	8783.32	147.78*	4,190.06*
4	Distribution Loss (1-2-3)	MU	22240.27	1394.38	9,434.06
5	Distribution Loss as % of net energy input (4/1)	%	18%	15.63%	17.31%
6	Excess Distribution Loss = [Actual Distribution Loss (5) - Distribution loss approved] x Net Energy Input (1)	MU	-	-	-
7	Disallowance of FAC due to excess Distribution Loss	Rs. Crore	-	-	-

9.2 The following table provides the comparison of approved and actual distribution loss and disallowance due to excess distribution loss if any.

\*Estimated Consumption of Agriculture Sales for April to September 2021 restricted as approved in Tariff Order and disallowed 13.50 MUs and 509.39 MUs for metered and unmetered Ag connections respectively

- 9.3 As seen from the above table, Distribution Loss up to September, 2020 is 17.31 % which is slightly lower than the approved Distribution Loss of 18%. The standalone loss for September 2020 is also lower. This is mainly due to estimated Ag sales and sales considered as per billing cycle whereas power purchase is considered for the standalone month.
  - 9.4 The comparison of Distribution Loss for the April to September 20 as compared to last year is as given below:

Part	iculars	Approved Loss	April	May	June	July	August	September	Cumulative upto September
FY 21	2020-	18%	30%	28.47%	2.82%	11.90%	11.12%	15.63%	17.31%
FY 20	2019-	13.26%	14.99 %	17.16 %	7.07%	12.69%	15.97%	11.04%	12.76%

The Commission notes that there has been significant variation in Distribution Loss on monthly basis whereas cumulative distribution loss have converged to approved loss number as actual meter reading is done for the consumers. As mentioned herein above, only 4% of Non-Ag sales are still on estimated basis.

9.5 As cumulative Distribution Loss is lower than approved by the Commission, no disallowance is worked out on account of excess Distribution Loss.

#### 10. Summary of Allowable $Z_{FAC}$

10.1 The summary of the FAC amount as approved by the Commission for the month of September, 2020 is as shown in the Table below:

S. No.	Particulars Ur		September- 2020 As submitted	September 2020- As Approved
1.0	Calculation of ZFAC			
1.1	Change in cost of generation and power purchase attributable to Sales within the License Area (F)	Rs. Crore	111.37	111.37
1.2	Carrying cost for over-recovery/under- recovery (C)	Rs. Crore	0.00	0.00
1.3	Adjustment factor for over- recovery/under-recovery (B)	Rs. Crore	0.00	0.00
1.4	$\mathbf{Z}_{\mathbf{FAC}} = \mathbf{F} + \mathbf{C} + \mathbf{B}$	Rs. Crore	111.37	111.37
2.0	Calculation of Per Unit FAC			
2.1	Energy Sales within the License Area	MU	8824.61	8301.72#
2.2	Excess Distribution Loss	MU	-	-
2.3	ZFAC per kWh	Rs./kWh	0.13	0.13
3.0	Allowable FAC			
3.1	FAC disallowed corresponding to excess Distribution Loss [(2.2 x 2.3)/10]	Rs. Crore	-	-
3.2	FAC allowable [1.4-3.1]	Rs. Crore	111.37	111.37
4.0	Utilization of FAC Fund			
4.1	Opening Balance of FAC Fund	Rs. Crore	(122.79)	(122.85)*
4.2	Holding Cost on FAC Fund	Rs. Crore	(0.80)	(0.80)
4.3	$Z_{FAC}$ for the month (Sr. N. 3.2)	Rs. Crore	111.37	111.37
4.4	Closing Balance of FAC Fund	Rs. Crore	(12.22)	(12.28)
4.5	Z <sub>FAC</sub> leviable/refundable to consumer	Rs. Crore	21.85	0.00
5.0	Total FAC based on category wise and slab wise allowed to be recovered in the billing month of November-20	Rs. Crore	0.00	0.00
6.0	Carried forward FAC for recovery during future period (4.5-5.0)	Rs. Crore	0.00	0.00

\* The Commission has considered opening balance as approved in FAC report for the month of August 2020 # Adjusted for excess Agriculture Sales not considered for the period April 20 to September 20

10.2 It can be seen from the above table that standalone FAC for the month of September, 2020 is Rs. 111.37 Crore. As the FAC is positive, the said amount will be adjusted from the FAC Fund of Rs 122.85 Crore.

#### **11. Recovery from Consumers:**

11.1 Regulation 10.9 of MYT Regulations, 2019 provides for methodology of recovery of FAC charge from each category of consumers. The relevant extract is reproduced as below.

*"10.9 The ZFAC per kWh for a particular Tariff category/sub-category/consumption slab shall be computed as per the following formula: —* 

 $Z_{FAC Cat}(Rs/kWh) = [Z_{FAC}/(Metered sales + Unmetered consumption estimates + Excess distribution losses)] * k * 10, Where:$ 

 $Z_{FAC \ Cat} = Z_{FAC}$  component for a particular Tariff category/sub-category/consumption slab in 'Rupees per kWh' terms;

*k* = Average Billing Rate / ACOS;

Average Billing Rate = Average Billing Rate for a particular Tariff category/subcategory/consumption slab under consideration in 'Rupees per kWh' as approved by the Commission in the Tariff Order:

Provided that the Average Billing Rate for the unmetered consumers shall be based on the estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

*ACOS* = *Average Cost of Supply in 'Rupees per kWh' as approved for recovery by the Commission in the Tariff Order:* 

Provided that the monthly  $Z_{FAC}$  shall not exceed 20% of the variable component of Tariff or such other ceiling as may be stipulated by the Commission from time to time:

Provided further that any under-recovery in the  $Z_{FAC}$  on account of such ceiling shall be carried forward and shall be recovered by the Distribution Licensee over such future period as may be directed by the Commission...."

11.2 The Commission allows the FAC amount of Rs. 111.37 Crore. As the FAC is positive, the said amount will be adjusted from the FAC Fund of Rs 122.85 Crore.

- 11.3 The Commission in its approval for the month of August, 2020 has directed MSEDCL to carry forward the approved FAC amount of Rs. (122.85) Crore to be accumulated as FAC Fund to be carried forward to the next billing cycle with holding cost. The opening balance of FAC fund along with holding cost is Rs. (123.65) Crore.
- 11.4 Accordingly, considering the approved standalone FAC amount of Rs. 111.37 Crore for the month of September, 2020 and the same being adjusted from the FAC fund, the total balance amount in FAC fund is Rs. (12.28) Crore. Accordingly, the total FAC Fund of Rs. (12.28) Crore is being allowed to be accumulated in the FAC Fund and shall be carried forward to the next billing cycle with holding cost.
- 11.5 The Commission in the Tariff Order had held that negative FAC amount shall be carried forward to the next FAC billing cycle with holding cost till the accumulated negative FAC reaches the limit of Rs. 1500 Crore.
- 11.6 In view of the above, the per unit  $Z_{FAC}$  for the month of September, 2020 to be levied on consumers of MSEDCL in the billing month of November 2020 is **Nil**.
