

Ref. No. MERC/FAC/20122013/01707

Date: 01.11.2012

To,
The Managing Director,
Maharashtra State Electricity Distribution Company Ltd.,
5th Floor, Prakashgad, Plot No. G-9,
Bandra (East),
Mumbai – 400 051.

Subject: Post Facto approval of FAC submission of MSEDCL for March 2012

Reference:

- i) MSEDCL's initial FAC submission of month March 2012 received vide MSEDCL/PP/FAC/L7/16257 of 12 June 2012
- ii) MSEDCL's corrected submission received on 10 October 2012

Sir

Upon vetting the FAC calculations for the month of March, 2012 submitted vide letter under above reference, the Commission has accorded post facto approval for charging to its consumers the FAC amount (net of excess T&D loss) of **Rs. 267.6522** Crores for March 2012, as detailed below.

The Commission has notified on 28th February 2011 the Amendment Regulations for recovery of Fuel Adjustment Cost charges from the Consumers in a proportionate manner. Accordingly, the Commission has also approved the category wise and slab wise tabulation for recovery of the said FAC charges by MSEDCL from its Consumers. The adjustments (positive or negative) arising out of the apportionment as above is to be carried forward by MSEDCL to the next month.

The Commission has observed that the Transmission loss reported by MSEDCL for the Month March 2012 is 2.98%. This appears to be much lower than the approved loss of 4.85% for InSTS. The Commission would like you to look into the matter, locate possible measurement or reporting errors and submit your feedback to the Commission regarding your findings .

The summary of the FAC claim for March, 2012 as approved by the Commission is shown in the Tables below:-

Table-1 (March 2012)

Sr. No.	Particulars	Unit	Approved
1	FAC (A) considering cap on Monthly FAC Charge	Rs Crores	675.9934
2	FAC (A) disallowed corresponding to excess T&D loss	Rs Crores	-
3	FAC (A) charged as per category wise and slab wise	Rs Crores	652.1244
4	C/f from Previous month.	Rs Crores	1483.8626
5	Under/over recovery from 6.6 statement 3.	Rs Crores	(105.3517)
6	Total FAC to be charged in current month 6=(3+4+5)	Rs Crores	2030.6353
7	Actual FAC charged in current month category wise and slab wise 5.	Rs Crores	267.6522
8	Carried forward FAC (A) for recovery during future period 8=(6-7)	Rs Crores	1740.2151
5	FAC rate	Paise/kWh	Proportionate. See Table-6A & 6B of Annexure attached with this letter
6	FAC rate (unmetered)		
6.1	-LT-Ag (>1318 hours per year)	Rs/hp/month	
6.2	-LT-Ag (<1318 hours per year)	Rs/hp/month	

Yours faithfully,

-sd/-

(Kuldip N. Khawarey)
Secretary, MERC

Encl: Annexure: Detailed Vetting Report for March 2012

Post Facto approval of FAC Charges for March 2012 submitted by MSEDCL

Reference:

- i) MSEDCL's FAC submission of month March 2012 received vide MSEDCL/PP/FAC/L7/16257 of 12th June 2012
- ii) Revised FAC submission received from MSEDCL on 10 October 2012

1. FAC submission by MSEDCL:

- 1.1 MSEDCL had submitted the FAC submission for March 2012 as per reference (i) above. Upon scrutiny of the said submission, the Commission observed some errors and these were brought to the notice of MSEDCL. Subsequently, MSEDCL rectified the errors and submitted the corrected submission on 10 October 2012.
- 1.2 Upon vetting the FAC calculations for the month of March 2012, resubmitted as above, and after taking cognizance of the clarifications furnished by MSEDCL to the queries raised by the Commission, the Commission has accorded post facto approval for the FAC amount for the said month as detailed below.

2. Background :

- 2.1 The Commission issued Tariff Order for MSPGCL, dated September 12, 2010 (Case 102 of 2009), for Truing up for FY 2008-09, Annual Performance Review for FY 2009-10 and Determination of Tariff for FY 2010-11.
- 2.2 The Commission had appointed CPRI (A Govt. of India enterprise) to conduct tests and recommend "Achievable performance parameters" of MSPGCL's thermal stations, whose report had guided the Commission to specify achievable performance parameters for the said year, taking into consideration the plant degradations.
- 2.3 The Commission issued Tariff Order for MSEDCL, dated September 12, 2010 (Case 111 of 2009), approving principles of Annual Revenue Requirement (ARR) and Tariff for FY 2010-11 and has also mentioned about the parameters and mechanism for computation of FAC.
- 2.4 The Commission issued a Review Order on 2nd December 2010 in the matter of Case 69 of 2010, "Application under Regulation 85 of the MERC (Conduct of Business) Regulations, 2004, by Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL) seeking review of the Order dated 12th September, 2010 in Case No. 111 of 2009 in respect of MSEDCL's Annual Performance Review (APR) for FY 2009-10, true up for

FY 2008-09 and ARR and Tariff Determination for FY 2010-11” whereby the Tariffs of various categories of Consumers were revised.

- 2.5 The Commission issued Order on October 31, 2011 in Case 100 of 2011 in the matter of Petition of MSEDCL seeking Final True up for the FY 2009 -10, Provisional True Up for the FY 2010 -11 and Annual Performance Review for the FY 2010-11, whereby the Commission has allowed MSEDCL to levy additional charges on and above the tariff charged to its consumers, with effect from November 1, 2011.
- 2.6 The Commission has notified on 28th January 2011 the “MERC (Terms and Conditions of tariff) (Amendment) Regulations, 2011” for recovery of Fuel Adjustment Cost charges from the Consumers in a proportionate basis as per its tariff category/sub-category/consumption slab.

3. **FAC computation** :

- 3.1 The Commission has taken cognisance of the directives issued in all the above orders and has accordingly approved FAC charges for the month of March 2012 in accordance with the principles stipulated therein and the MERC (Terms and Conditions of Tariff) Regulations, 2005. Any variance on account any further Reviews / Amendments will be addressed during the true-up.
- 3.2 Subsequent to the approval of the aggregate FAC amount, the Commission has also approved the apportionment of the said recovery from the consumers, based on the tariff categories and consumption slabs up to respective ceilings of 10%.
- 3.2 Regarding purchase of power from the external sources, the Commission has considered power purchase sources and rates based on the APR Order dated September 12, 2010, which were effective from September 2010. As power purchased from Korba III and Sipat Unit 1 unit of NTPC is not in “approved sources” list, of the Tariff Order issued to MSPGCL, the total power purchase cost for the same is claimed through FAC.
4. Refund of Rs. 10.26 Crores per month to non ZLS consumers as per the Commission’s Order in Case 23 of 2010 issued on May 30, 2011 (over total 9 month period) has been considered (Ref Item 2.1 of Table 5A below). The said refund is taken into consideration from the month of September 2011. The 9 month period will end in the month of May 2012. Hence till the current month (March 2012) total of 7 instalments have been considered and further 2 instalments are balance.

5. **Details of approval:**

5.1 **Approval:**

The Commission has accorded post facto approval for the FAC amount of (net of T & D loss), **Rs. 267.6522 crores** for the month of March 2012. The summary of the FAC claim for March 2012 as approved by the Commission is shown in the Table below:-

Table -1

Sr. No.	Particulars	Unit	Approved
1	FAC (A) considering cap on Monthly FAC Charge	Rs Crores	675.9934
2	FAC (A) disallowed corresponding to excess T&D loss	Rs Crores	-
3	FAC (A) charged as per category wise and slab wise	Rs Crores	652.1244
4	C/f from Previous month.	Rs Crores	1483.8626
5	Under/over recovery from 6.6 statement 3.	Rs Crores	(105.3517)
6	Total FAC to be charged in current month 6=(3+4+5)	Rs Crores	2030.6353
7	Actual FAC charged in current month category wise and slab wise 5.	Rs Crores	267.6522
8	Carried forward FAC (A) for recovery during future period 8=(6-7)	Rs Crores	1740.2151

After the apportionment, the under-recovered FAC amount to be carried forward to the next month is **Rs. 1740.2151 Crores.**

Note: As per Order Case No. 43 of 2012 dated 15 June 2012, The Commission has allowed MSEDCL to recover an accumulated amount of 1483 crores from its consumers through monthly energy bills in six equal instalments from June 2012 to November 2012. The total monthly recovery amount in such case will be Rs 247 crores (in each month)

6. Analysis of FAC proposal submitted by MSEDCL and computation of FAC charges is as below:

a) **Generation by MSPGCL stations:** (Ref: Details in Form 1.3 of FAC submission)

- The Plant Load factor at MSPGCL Khaparkheda, Nashik and Paras 3 Thermal power station, and Gas Thermal Station, for the Month March 2012 was 90.01%, 98.79% and 94.32% respectively. At the other thermal power plants it was less than 80.00%.
- The actual Gross generation at MSPGCL plants (Hydel, Thermal and Gas) as per the company's submissions for the month is **4285.02 MUs**. (Order value 5040.02 MUs).

b) **Variable Cost of Generation:**

MSEDCL has submitted the break-up of purchase price of different fuels for all stations of MSPGCL, certified by Chartered Accountant.

i) **Variable Fuel Cost:**

MSEDCL has considered the base variable fuel cost for each station as approved by the Commission in the APR Order of MSPGCL of 12th September 2010 (Case 102 of 2009) and in conformity with the directions given in the Commission's letter,

MERC/MON/FAC/MSEDCL/09/2637 dated November 20, 2009

The summary of fuel related costs for the month March 2012 for existing generating stations of MSPGCL as approved by the Commission after detail vetting is shown in the Table below:

Table-2

Sr. No.	Detail	Unit	
1	Actual Fuel Cost	Rs. Crores	889.4375
2	Normative Actual Fuel cost	Rs. Crores	900.1986
3	Net Generation	MUs	3,414.20
4	Approved variable cost of generation (Order)	Rs./kWh	1.7537
5	Actual average variable cost of generation	Rs./kWh	2.6051
6	Average Normative variable cost of generation	Rs./kWh	2.6366
7	Change in variable cost of generation = {(3)X[(6)-(4)]}/10	Rs. Crores	301.4276

Note : Fuel Inventory

At Bhusawal, Parli TPS, Paras 3, and Parli 6 Stations, the opening balance of Raw Coal did not match with the closing balance of the same in the previous month. Clarification was sought from the utility regarding the said discrepancy. The utility clarified that the mismatch is due to shortage in inventory observed during stock checking. It was further clarified that there was a mismatch at Koradi station as well, and the reason for the same was that the difference was due to a credit Note being issued by the Coal Handling Plant. The Commission has taken note of the clarification.

ii) Variable cost of power purchase

The Commission has considered the increase in power purchase cost in case of approved power purchase sources as per the APR order of MSEDCL of September 12, 2010 (Case 111 of 2009) which is applicable from September, 2010 (See Appendix). MSEDCL has submitted the data for the power purchase certified by Chartered Accountant. The details of power purchase by MSEDCL for March 2012 are given below:

Table-3

Sr. No.	Details	Unit	March 2012
1	Net Energy Purchase	MUs	5184.53
2	Variable Cost of Energy purchased	Rs. Crores	1453.0014
3	Average Rate of energy purchased	Rs./kWh	2.80
4	Approved Rate for Energy purchase (Order)	Rs./kWh	2.31

c) Unscheduled Interchange (UI) Charges:

MSEDCL has procured 130 MUs through UI at average rate of Rs. 4.75 per kWh, in March 2012. The net cost of UI purchase was Rs. 62.0047 Crores.

d) Scheduled Energy Received in grid through Imports from various regions and losses:

MSEDCL has claimed losses in power purchase through grid at (53) MUs in March 2012 as the difference between the Scheduled Energy (including UI) and Actual sale.

The Commission has considered the losses in the grid as submitted by MSEDCL.

e) Total sales in licensed area:

The total sales in its licensed area have been presented by MSEDCL in the following manner:-

- a. Metered sales include the total sales metered for the HT and LT consumers in its area.
- b. Unmetered sales are the assessed sales of unmetered consumers.

These are shown in Form 1.1 of FAC statement as the total sales of the area (gross). From these, those which are eligible for FAC are separated out by deducting the HT credits given (for HT consumers having own small sources injected in network, temporary supplies, etc) to indicate net sales in licensed area which are tabulated in form 8.1 of FAC submission. The details as above are tabulated below:

Table 4

Sr. No.	Detail	Unit	Qty	Ref FAC submission Form
1	Total Energy Sales excluding Energy Sales corresponding to specific utilisation of a particular Unit/Station as per Order.	MUs	6134.35	Item No. 5 of FAC submission Form 1.1
2	Total sales of categories below 1318 Hrs/yr and above 1318 Hrs/yr for the said month	MUs	766.89	Sum of assessed energy sold in FAC submission Form 1.2
3	Less: Credit for HT injections, temporary supply, interstate, wheeling etc	MUs	-43.12	Entry with explanation in FAC submission Form 7.1, for item No.1
4	Total of item 1 and 2	MUs	6901.24	
5	Grand total of items 1, 2 and 3	MUs	6858.12	Item 2.1 of FAC submission form 8.1

Order Values: Metered Sales : 5284.25 MUs, Unmetered Sales : 542.00 MUs.

f) Interest on working capital –

MSEDCL has mentioned that 10.25% is the rate of Interest for working capital. However, no IWC has been claimed in the format 6.5 submitted for claiming the IWC incurred. Hence Interest on working capital has not been considered for the said month. As per APTEL judgment, interest on the difference of normative actual cost and approved cost of fuel in a month is eligible for payment through FAC mechanism, in case such claim is made along with supportive documentation. Else it will be addressed through the Annual True-up.

g) **Adjustment factor-**

The computation of Adjustment factor is as shown in the following table.

Table-5A

Adjustment Factor – March 2012

Sr. No.	Parameter	Unit	Value
(A)	(B)	(C)	(D)
1.0	Adjustment for over-recovery/under-recovery ('B')		
1.1	Incremental cost allowed to be recovered in Month (Mar 12)	Rs Lakh	24,007.17
1.2	Incremental cost in Month j-5 actually recovered in month j-2 (Dec -2011)	Rs Lakh	35,235.33
1.3	Over-recovery/under-recovery (1.2-1.1)	Rs Lakh	(10,535.17)
2.0	C/f DUE TO FORMULA ERROR in February	Rs Lakh	4,253.18
2.1	Refund to the non beneficiary consumers of ZLS Scheme in 9 instalments (7th Instalment)	Rs Lakh	1,026.00
3.0	Adjustment factor for over-recovery/under-recovery (2.0 – 2.1)	Rs Lakh	3,227.18

7. Transmission and Distribution Loss:

Transmission Loss:

In the FAC submission, MSEDCL has reported Transmission loss for the month of March 2012 as 2.98% as against approved order value of 4.85%. Explanation is sought from the utility regarding such a wide deviation in the actual transmission loss with respect to the approved transmission loss..

Distribution loss:

For the month March 2012, MSEDCL has reported Distribution Loss of 19.80 %. Thereby, the Cumulative Distribution loss up to the month of March 2012 is 16.00 % against approved Distribution loss of 17.20%. As the reported distribution loss (cumulative up to the month) is less than the stipulated limit value of Distribution loss for the FY, no deductions have been made from FAC charges of March 2012.

8. Energy Sales for within License area:

The net energy sales within licence area as submitted by MSEDCL in the FAC submission, after deducting the HT credits, temporary supply etc as explained above, for the month March 2012, is **6858.12** MUs, (Refer Item 5 of Table 4 above), and the same is approved by the Commission.

9. Year End adjustments :

- i) **Auxiliary consumption:** The actual Auxiliary Consumption has been in Excess than the Normative Auxiliary Consumption in the months of May 2011 to Nov 2011. However, as the disallowance / gain on Auxiliary consumption is being given effect on monthly basis, there is no need to make Year End Adjustment for Auxiliary Consumption.
- ii) **T & D Loss :** .
Adjustment at year end is the reversal for excess Disallowance of Distribution loss which has been disallowed during the year. It is to be noted that the adjustment is only for Distribution Loss as the Transmission Loss does not come in picture as far as the Distribution utility is concerned. In case distribution loss disallowed is more than actual disallowable loss, then the Utility is eligible for credit to that extent. In case disallowed loss is less than actual disallowable loss, then the negative adjustment needs to be done. The reversal has been limited to the extent of disallowance done on month to month basis. As per the monthly submissions and calculations the total disallowance done has been Rs. 13.9410 Crore. Hence the total reversal for excess Disallowance of Distribution loss comes to Rs. 13.9410 Crore. This is approved.

10. Summary:

The summary of the FAC amount as approved by the Commission for the month March 2012 is shown in the Tables below:-

The Commission has approved FAC chargeable in March 2012 as **Rs. 267.6522 Crores** and has allowed to be carried forward to the next month for recovery **Rs. 1740.2151 Crores**, arrived at as the sum of the following quantities:

- a) Difference between FAC allowed to be recovered in December 2011 (month j-5) and the FAC actually recovered in March 2012.
- b) Difference between the FAC chargeable as per formula and that chargeable as per Order value on account of difference in MUs consumed by various categories with respect to Order values
- c) Excess amount above cap applied to any categories.
- d) Carried forward amount from the previous month
- e) Formula error of February 2011 FAC submission in Form 8.3

This is approved.

Table-5B

Sr. No.	Parameter	Unit	Value
(A)	(B)	(C)	(D)
1.0	Calculation of FAC (A)		
1.1	Disallowance of change in variable cost of generation corresponding to excess auxiliary consumption	Rs Lakh	-
1.2	Change in weighted average variable cost of generation and power purchase after accounting for disallowance of change in variable cost corresponding to excess auxiliary consumption	Rs Lakh	-
1.3	Apportionment of change in variable cost of generation and power purchase to License Area (C)	Rs Lakh	62,978.07
1.4	Working Capital Interest (I)	Rs Lakh	-
1.5	T & D Loss Adjustment for the year		1,394.10
1.6	Adjustment for Over Recovery/Under Recovery (B)	Rs Lakh	3,227.18
1.7	FAC (A) = C + I + B	Rs Lakh	67,599.34
2.0	Calculation of FAC_{kWh}		
2.1	Sale within License Area	MU	6,858.12
2.2	Excess T&D Loss	MU	-
2.3	FAC Charge (FAC _{kWh}) without considering cap on monthly FAC Charge	Paise/kWh	98.57
2.4	Cap on monthly FAC Charge	Paise/kWh	98.57
2.5	FAC Charge (FAC_{kWh}) considering cap on monthly FAC Charge	Rs/kWh	0.9857
3.0	FAC (A)		
3.1	FAC (A) considering cap on Monthly FAC Charge	Rs Lakh	67,599.34
3.2	FAC (A) disallowed corresponding to excess T&D loss	Rs Lakh	-
3.3	FAC (A) charged as per 8.3 category wise and slab wise 1	Rs Lakh	65,212.44
3.4	C/f from Previous month 2.	Rs Lakh	1,48,386.26
3.5	Under/over recovery from 6.6 statement 3.	Rs Lakh	(10,535.17)
3.6	Total FAC to be charged in current month 4=(1+2+3)	Rs Lakh	2,03,063.53
3.7	Actual FAC charged in current month category wise and slab wise 5.	Rs Lakh	26,765.22
3.8	Carried forward FAC (A) for recovery during future period (4-5)	Rs Lakh	1,74,021.51

11. Recovery from Consumers:

As notified on 28th January 2011, vide Maharashtra Electricity Regulatory Commission (Terms and Conditions of Tariff) (Amendment) Regulations, 2011, the Commission has amended the Regulations applicable to recovery of FAC as follows:

“82.6 The monthly FAC charges of a particular tariff category/sub-category/consumption slab shall not exceed 10% of the variable component of tariff of that tariff category/sub-category/consumption slab, or such other ceiling as be stipulated by the Commission from time to time.

Provided that any excess in the FAC charge over the above ceiling shall be carried forward by the Distribution Licensee and shall be recovered over such future period as be directed by the Commission.

Provided further that in case of un-metered consumers, ceiling of FAC charges shall be calculated by multiplying the ceiling of FAC charges of metered sub-category by the ratio of Average Billing Rate (ABR) of respective un-metered sub-category to ABR of metered sub-category within the same tariff category.

“82.10. Calculation of FAC per kWh for a particular tariff category/sub-category/consumption slab shall be as per the following formula:

*FACCat Rs/kWh = (FAC / (Metered sales + Unmetered consumption estimates + Excess distribution losses)) * K * 10*

Where:

FACCat = FAC for a particular tariff category/sub-category/consumption slab in ‘Rupees per kWh’ terms.

K = (Energy Charge) / (ACOS)

Where,

Energy Charge = Energy Charge for a particular tariff category / sub-category/ consumption slab under consideration in ‘Rupees per kWh’ as approved by the Commission in Tariff Order.

ACOS = Average Cost of Supply in ‘Rupees per kWh’ as approved for recovery by the Commission in Tariff Order.

Based on the above amendment, MSEDCL has calculated the “FAC apportioned to each Tariff Category and as per applicable slab”,

As the FAC has been limited to the cap of 10% of the energy charge at each consumer slab/category, because of the energy consumption of the respective categories being at slight plus or minus variances as compared to the Order values, in spite of the fact that the FAC in certain categories has reached the cap values, the average FAC charged is Rs. 0.3903/kWh which has not reached the cap value Rs. 0.455/kWh

Table 5C

Sr. No.	Details	Unit	Qty
1	Sales in licensed area	MUs	6,858.12
2	FAC(A) =C+I+B	Rs Lakh	67,599.34
3	FAC (A) disallowed corresponding to excess T&D loss	Rs Lakh	-
