To,

The Honorable Secretary  
Maharashtra Electricity Regulatory Commission  
13th Floor, Centre, No.1, World Trade Centre,  
Cuffe Parade, Colaba, Mumbai 400005

Sub: Suo-Moto proceedings for verification and compliance of Renewable Purchase Obligation targets for FY 2010-11 to FY 2013-14 by Obligated Entities (Otherthan Distribution Licensees).  
Ref: Your letter dated MERC/Case No. 101 of 2017/2017-18/3390 dated 23 June 2017.

Dear Sir,

We refer to the NOTICE received from your end on the said subject and would like to inform you that we don't have any entity by name Kiran Energy Infrastructure as addressed in your letter.

Kiran Renewables Pvt. Ltd., is having a 4 MW solar PV plant at Gat 39 Hinganigada, Dhound, Maharashtra which has been operational since October '15 and the Power generated is sold on an long term Open access Sale to Godrej & Boyce Mfg. Ltd.

**Please be informed that we are a Solar power producer and we don't come under any of the Obligated Entities for Renewable Purchase Obligation.**

We have written to MERC vide our letter dated February 10<sup>th</sup> 2017, that in our monthly credit note generated by MSEDCL, RKVAH charges are being calculated at 36% of the total generation. We understand from MERC rulings, this 36% charge is applicable only on plants generating power using Biomass. Since ours is a Solar plant which operates at a power factor of 1 (which can be verified by the monthly credit notes) the methodology for calculating RKVAH charges for a Solar plant needs to be corrected.

We have sent our above request letter by post and also through email dated February 13, 2017 again on March 02, 2017 and again on June 02, 2017.

We humbly request the honorable commission to look into this matter and issue a notification which would provide guidance to MSEDCL to calculate the RKVAH charges applicable to Solar power plants.

Kind Regards,

Dinesh Kumar  
Kiran Renewables Pvt Ltd
