

**BEFORE THE MAHARASHTRA ELECTRICITY REGULATORY COMMISSION,
MUMBAI**

CASE NO. : 182 OF 2014

IN THE MATTER OF:

Petition for submission of Revised Network Rollout Plan in compliance to the direction of the Hon'ble Commission in Case No. 90 of 2014 and the direction of the Hon'ble ATE in Appeal Nos. 229 and 246 of 2012

AND IN THE MATTER OF:

Tata Power Company Limited,
Bombay House, 24, Homi Mody Street,
Mumbai – 400 001

--- Petitioner

**AFFIDAVIT VERIFYING BEST'S REPLY TO TPC'S SUBMISSIONS ON MEANING
OF "NEW CONNECTION / NEW CONSUMER"**

I, Rajendra Dadaram Patsute, son of Dadaram Patsute, aged 48 years, having my office at BEST Bhavan, BEST Marg, Colaba, Mumbai – 400 001 do solemnly affirm and state as follows:

1. I am Chief Engineer (Regulatory) of the Brihanmumbai Electric Supply and Transport Undertaking of Municipal Corporation of Greater Mumbai (i.e. BEST). I am duly authorized and competent to make this Affidavit.

2. The statements made in the Reply, are based on information and / or record maintained by BEST in its usual course of business, which I believe to be true.

3. I say that there are proceedings pending before (i) Hon'ble APTEL under the Appeal No. 243 of 2014, and (ii) Hon'ble Supreme Court of India under the Civil Appeal No. 4074 of 2015 and the Civil Appeal (Diary) No. 11771 of 2015, wherein inter alia TPC and BEST are parties and wherein issues arising and / or relief sought are relevant to the issues arising in the present matter pending before the Hon'ble Commission.

Solemnly affirmed at Mumbai on this **07 SEP 2015** day of _____, 2015 that the contents of this affidavit are true to my knowledge, no part of it is false and nothing material has been concealed therefrom.

CASE NO. : 182 OF 2014

IN THE MATTER OF:

Petition for submission of Revised Network Rollout Plan in compliance to the direction of the Hon'ble Commission in Case No. 90 of 2014 and the direction of the Hon'ble ATE in Appeal Nos. 229 and 246 of 2012

AND IN THE MATTER OF:

Tata Power Company Limited,
Bombay House, 24, Homi Mody Street,
Mumbai – 400 001

--- Petitioner

**BEST'S REPLY TO TPC'S SUBMISSIONS ON MEANING OF "NEW
CONNECTION / NEW CONSUMER"**

1. At the outset, BEST denies each and every averment made in the Submissions of Tata Power Co. Ltd. (i.e. TPC) on meaning of New Connection / New Consumer, which is contrary to or inconsistent with that which is stated herein, and humbly submits that nothing in the said Submissions of TPC be deemed to be admitted by or on behalf of BEST, for want of specific traverse. BEST clarifies that the averments and submissions made herein are in alternative and without prejudice to one another. BEST also craves leave to file an Additional Affidavit, if necessary.

2. At the further outset, it is clarified that BEST has filed its Reply, Additional Reply and Further Reply in the Case No. 182 of 2014. BEST reiterates that the contents of the said Reply, Additional Reply and Further Reply, and submits that the same be deemed to be and are part of this Reply. In that regard, BEST craves leave to refer to and rely upon the said Reply, Additional Reply and Further Reply, if necessary.
3. It is pertinent that TPC under its Submissions has estimated the network rollout required (i) in the island city of Mumbai on the basis of the Order dated 14.08.2014 made by MERC in Case No. 90 of 2014, and (ii) in the Mumbai suburbs on the basis of the Judgment dated 28.11.2014 passed by Hon'ble APTEL in the Appeal Nos. 246 and 229 of 2012, pursuant to the Daily Order dated 12.08.2015 made by MERC in this Case No. 182 of 2014 requiring different treatment by TPC of the area common with BEST vis-à-vis the area common with RInfra. However, at the same time, TPC under its Submissions has illegally and malafide relied upon the Judgment dated 28.11.2014 passed by Hon'ble APTEL in the Appeal Nos. 246 and 229 of 2012, in proposing the network rollout by TPC in the island city of Mumbai. In this regard, BEST submits that TPC cannot arbitrarily substitute the requirements of the Order dated 14.08.2014 made by MERC in Case No. 90 of 2014 and the Distribution License No. 1 of 2014 granted on 14.08.2014 by MERC to TPC, with the requirements of the Judgment dated 28.11.2014 passed by Hon'ble APTEL in the Appeal Nos. 246 and 229 of 2012, to sub-serve the ulterior motives of TPC.

4. In the circumstances, BEST submits that the said Judgement dated 28.11.2014 is neither applicable nor relatable to BEST or its area of supply. Hence, the reference to or reliance upon the said Judgment dated 28.11.2014 by TPC in proposing its network rollout in the island city of Mumbai, is clearly malafide and misconceived.
5. Also, alternatively and without prejudice, BEST submits that the said Judgment dated 28.11.2014 of Hon'ble APTEL required TPC to create or rollout a distribution network in parallel to an already existing distribution network, only if such creation or rollout of distribution network in parallel by TPC would improve the reliability of supply of electricity and benefit the consumers of electricity. Furthermore, it is significant that the said Judgment dated 28.11.2014 of Hon'ble APTEL requiring TPC to extend supply to new consumers who seek connection from TPC, would be applicable and relevant only to a consumer in or about whose premises there does not exist / subsist any distribution network whatsoever. Therefore, TPC cannot extend supply to consumers in or about whose premises there already exists and subsists a reliable distribution network.
6. Alternatively and without prejudice, BEST states that a bare perusal of the Judgment dated 28.11.2014 passed by Hon'ble APTEL in the Appeal Nos. 246 and 229 of 2012 (and in particular Paras 58 to 61 and 80 thereof), clearly makes the following requirements of the Rollout Network Plan of TPC :-
- (i) the Rollout Network Plan of TPC should disclose whether there are practical or physical constraints in rollout of distribution network

- (ii) in case of such practical or physical constraints, the Rollout Network Plan of TPC should disclose the geographical areas where there are such practical or physical constraints in rollout of distribution network,
- (iii) the Rollout Network Plan of TPC should disclose whether there is already a subsisting distribution network of a pre-existing distribution licensee,
- (iv) in case of such subsisting distribution network, the rollout plan of TPC should disclose and demonstrate that the creation or rollout of a distribution network in parallel by TPC is necessary to improve the reliability of supply of electricity and benefit the consumers of electricity,
- (v) the Rollout Network Plan of TPC should disclose whether there are any premises of new consumers, in or about which there is not any distribution network,
- (vi) in case of such premises of the consumers, the Rollout Network Plan of TPC should disclose the backbone distribution network and last mile connectivity from such backbone distribution network, for extension of supply of electricity to the premises of such new consumers,
- (vii) the Rollout Network Plan of TPC should not selectively create or rollout the distribution network of TPC.

7. However, the Revised Network Rollout Plan submitted by TPC does not at all state, much less specify :-

- (a) the subsisting distribution network of a pre-existing distribution licensee,
- (b) as to how the subsisting distribution network of a pre-existing distribution licensee is not reliable,

(c) as to how the creation or rollout of distribution network in parallel by TPC would improve the reliability of supply of electricity and benefit the consumers of electricity,

(d) any premises of new consumers, in or about which there is not any distribution network,

(e) as to the backbone distribution network and last mile connectivity from such backbone distribution network, for extension of supply of electricity to the premises of such new consumers,

(f) as to how the creation or rollout of distribution network of TPC is to provide equal access to all categories of consumers of electricity, and in particular to low end consumers having consumption between 0-300 units.

8. BEST submits that TPC in its submissions is malafide arrogating to itself the right to selectively develop network for supplying electricity to any type of new consumers, as well as the right to lay out duplicate network for supplying electricity to consumers of a pre-existing distribution licensee (under the guise of "new connection / new consumer"), by misinterpretation of aforesaid Judgment dated 28.11.2014 of Hon'ble APTEL and / or provisions of the Electricity Act, 2003. BEST submits that such misinterpretation by TPC has been misused in the submissions of TPC to allege that new as well as existing consumers of Rlnfra and BEST are free to opt for or switchover to TPC. BEST submits that TPC has misinterpreted the provisions of the Electricity Act, 2003 in its submissions, to malafide enable selective development of distribution network by TPC for supplying electricity to any type of new consumer. BEST reiterates that the said Judgment dated 28.11.2014 is ex facie relatable and /

or specific only to the area of supply common to Rlnfra and TPC (i.e. suburban Mumbai and Mira-Bhayander). BEST reiterates that the said Judgment dated 28.11.2014 is neither applicable nor relatable to BEST or its area of supply.

9. With reference to Para 1 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the Order dated 14.08.2014 made by MERC in Case No. 90 of 2014, as well as the Distribution License No. 1 of 2014 granted by MERC to TPC, to elicit the correct effect and interpretation thereof.
10. With reference to Para 2 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the Revised Network Rollout Plan submitted on 09.10.2014 by TPC under the Case No. 90 of 2014, to elicit the correct effect and interpretation thereof.
11. With reference to Para 3 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the Judgment dated 28.11.2014 passed by Hon'ble APTEL, the Revised Network Rollout Plans submitted on 12.02.2015 and 06.08.2015 by TPC, to elicit the correct effect and interpretation thereof.

12. With reference to Para 4 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the Daily Order dated 12.08.2015 made by MERC in this Case No. 182 of 2014, to elicit the correct effect and interpretation thereof.
13. With reference to Paras 5, 6 and 7 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the Judgment dated 28.11.2014 passed by Hon'ble APTEL, to elicit the correct effect and interpretation thereof. BEST submits that TPC has misinterpreted and misapplied the said Judgment dated 28.11.2014 of Hon'ble APTEL and / or the provisions of the Electricity Act, 2003, to subserve TPC in cherry picking of consumers. In particular, BEST reiterates that the said Judgment dated 28.11.2014 is ex facie relatable and / or specific only to the area of supply common to RInfra and TPC (i.e. suburban Mumbai and Mira-Bhayander). BEST reiterates that the said Judgment dated 28.11.2014 is neither applicable nor relatable to BEST or its area of supply.
14. With reference to Paras 8, 9 and 10 of TPC's submissions on meaning of "New Connection / New Consumer", BEST craves leave to refer to and rely upon the provisions of Sections 2(15), 2(49), 2(51), 2(70), 42 and 43 of the Electricity Act, 2003, to elicit the correct effect and interpretation thereof.

15. With reference to Paras 11, 12, 13 and 14 of TPC's submissions on meaning of "New Connection / New Consumer", BEST disputes the correctness of respective contents thereof. BEST disputes and denies that the terms "new connection" and "new consumer" used in the aforesaid Judgment dated 28.11.2014 of the Hon'ble APTEL, have to be interpreted in the manner set out by TPC. BEST disputes and denies that there is not any restriction imposed on TPC for laying distribution network to service such "new connection" or "new consumer", under the said Judgement dated 28.11.2014 of the Hon'ble APTEL. BEST denies that TPC has duly or appropriately considered "new connection" or "new consumer" in its Revised Network Rollout Plan or that such Revised Network Rollout Plan of TPC deserves to be approved by MERC. BEST reiterates that the said Judgment dated 28.11.2014 of Hon'ble APTEL required TPC to create or rollout a distribution network in parallel to an already existing distribution network, only if such creation or rollout of distribution network in parallel by TPC would improve the reliability of supply of electricity and benefit the consumers of electricity. Furthermore, it is significant that the said Judgment dated 28.11.2014 of Hon'ble APTEL requiring TPC to extend supply to new consumers who seek connection from TPC, would be applicable and relevant only to a consumer in or about whose premises there does not exist / subsist any distribution network whatsoever. Therefore, TPC cannot extend supply to consumers in or about whose premises there already exists and subsists a reliable distribution network.

16. In the circumstances and for reasons aforesated, BEST humbly submits and prays that the Revised Network Rollout Plan submitted by TPC deserves and should be discredited, and the TPC's Submissions on the meaning of "New Connection / New Consumer" ought to and should be discredited and dismissed by MERC with costs.
