vi. In case of sanctioned load equal to or higher than 50 KW, the Consumer shall have to enter into an agreement with the New Distribution Licensee at the time of Changeover.	vi. In case of sanctioned load equal to or higher than 50 KW, the Consumer shall have to enter into an agreement with the <del>New</del> <del>Other</del> Distribution Licensee at the time of <del>Changeover</del> <del>Switchover</del> .	-
<b>1.4 Changeover</b>	<b>1.4 Switchover</b>	
i. The Changeover shall coincide with the next scheduled meter reading date of the Existing Distribution Licensee subject to minimum 7 working days from receipt of intimation from the New Distribution Licensee.	i. The <del>Changeover</del> <del>Switchover</del> shall be <del>coincide with the next scheduled meter reading date of the</del> by Existing Other Distribution Licensee subject to minimum 7 working days <del>from receipt of</del> from the day clearance is given by intimation from the New existing Wire Distribution Licensee.	Minimum 7 days advance notice required to existing WDL to plan disconnection and removal of meter in coordination with Other DL so that consumers are not inconvenienced at the time of Switchover.
ii. In any case the Changeover can not take more than 30 days from the receipt of completed Changeover application by the New Distribution Licensee. The Wheeling Distribution Licensee and the New Distribution Licensee to agree on a suitable date for Changeover within 30 day period, if next meter reading date falls beyond such period.	ii. In any case the <del>Changeover</del> <del>Switchover</del> can not take more than 30 days from the receipt of completed <del>Changeover</del> <del>Switchover</del> application by the <del>New</del> <del>Other</del> Distribution Licensee. <del>The existing Wheeling Distribution Licensee and the New Other Distribution Licensee to agree on a suitable date for Changeover Switchover within 30 day period, if next meter reading date falls beyond such period.</del>	

Existing Changeover Protocol	Proposed changes for Switchover Protocol	Remarks
<p>iii. In case, a consumer opts for the New Distribution Licensee's meter or own meter – the same shall be tested by the New Distribution Licensee at its laboratory and installed at the consumer's premises. The Existing Distribution Licensee to remain present at the time of such testing.</p>	<p>To be deleted</p>	<p>As it is governed by provisions of other Regulations.</p>
<p>iv. In case of meters provided by the Existing Distribution Licensee, such meters will be tested jointly on-site as per agreed schedule between the Existing Distribution Licensee and the New Distribution Licensee, ideally at the time of Changeover.</p>	<p>To be deleted</p>	<p>This provision not required in switchover.</p>
<p>v. In case metering involves CT/PT, then there shall be a joint schedule for verification of CT/PT ratios.</p>	<p>To be deleted</p>	<p>This provision not required in switchover.</p>
<p>vi. All meters and cutouts for Changeover consumers shall be safe-guarded against unauthorized access by way of sealing. For the New Distribution Licensee and consumer meter, sealing shall be done by the New Distribution Licensee and for the Existing Distribution Licensee provided meter, sealing shall be by the Existing Distribution Licensee. The cutout in all cases shall be sealed by the Existing Distribution Licensee.</p>	<p>To be deleted</p>	<p>This provision not required in switchover.</p>

Existing Changeover Protocol	Proposed changes for Switchover Protocol	Remarks
<p>vii. The meter reading on Changeover date shall be taken jointly by EDL &amp; NDL. The consumer may remain present at the time of joint meter reading if so desired by the consumer and if it is practicable. Such meter reading shall be the final meter reading of the Existing Distribution Licensee and opening meter reading of the New Distribution Licensee, irrespective of the choice of meter by the consumer. Such meter reading shall be counter-signed by the Existing Case No. 50 of 2009 Page 19of 28 Distribution Licensee, New Distribution Licensee and the consumer, if present at the time of joint meter reading.</p>	<p>vii. The meter reading on <del>Changeover</del> Switchover date shall be taken jointly by <del>EDL &amp; NDL</del> Other Distribution Licensee and existing WDL. The consumer may remain present at the time of joint meter reading if so desired by the consumer and if it is practicable. Such meter reading shall be the final meter reading of the Existing Wire Distribution Licensee and opening meter reading of the new meter of New Other Distribution Licensee, irrespective of the choice of meter by the consumer. Pre-defined Switchover form will be signed by representatives of both the licensees. <del>Such meter reading shall be counter signed by the Existing Case No. 50 of 2009 Page 19of 28 Distribution Licensee, New Distribution Licensee and the consumer, if present at the time of joint meter reading.</del></p>	<p>In switchover there will be meter replacement. To acknowledge the switchover, both distribution licensee need to sign the prescribed form for record purpose.</p>
<p>viii. The Existing Distribution Licensee shall raise the final bill based on final meter reading. The Consumer shall pay the Existing Distribution Licensee's final bill on or before the due date.</p>	<p>viii. The Existing Wire Distribution Licensee shall raise the final bill based on final meter reading. The Consumer shall pay the Existing Wire Distribution Licensee's final bill on or before the due date.</p>	
<p>ix. The Existing Distribution Licensee may adjust the security deposit (with the Existing Distribution Licensee) in the event of payment default with the prior notice, if any, and refund the balance security deposit within 7 working days from the due date for final bill</p>	<p>ix. The Existing Wire Distribution Licensee may adjust the security deposit (with the Existing Distribution Licensee) in the event of payment default with the prior notice, if any, and refund the balance security deposit within 7 working days from the due date for final bill</p>	

Existing Changeover Protocol	Proposed changes for Switchover Protocol	Remarks
x. In case of any non-payment or partial payment of final bill of the Existing Distribution Licensee (after adjusting security deposit, if any) by the Changedover consumer, provisions of Section 56 (Disconnection of supply in default of payment) of EA 2003 shall apply.	x. In case of any non-payment or partial payment of final bill (after adjusting security deposit, if any) by the customer, existing WDL shall send such unpaid amount to Other Distribution Licensee, who will include the same in consumer's current months bill and collect the same. On collection, the amount will be passed on to existing WDL. Non-payment of such amount by consumer, Other Distribution Licensee shall recover such amount as per provisions of Section 56 (Disconnection of supply in default of payment) of EA 2003.	Protection from any unpaid dues by consumer to existing WDL.
<b>1.5 Meter reading</b>	<b>To be deleted</b>	Not applicable
