ANNEXURE A

Detailed Vetting Report
Date: 28 February, 2023

PRIOR APPROVAL FOR FAC CHARGES FOR THE MONTH OF OCTOBER, 2022

Subject: Prior Approval of Fuel Adjustment Charges (FAC) submission of MSEDCL for the month of October, 2022.

Reference: MSEDCL's FAC submission dated 15 December, 2022 and 9 February, 2023 for prior approval of FAC for the month of October, 2022.

1. FAC submission by MSEDCL:

1.1 MSEDCL has submitted FAC submissions for the month of October, 2022 as referred above. Upon vetting the FAC calculations, taking cognizance of all the submissions furnished by MSEDCL against the data gaps issued, the Commission has accorded prior approval to MSEDCL for FAC amount of Rs. 1140.33 Crore. However, the said amount is added to the FAC Fund along with carrying cost and total amount of Rs. 2255.25 Crore is being carried forward and will be accumulated up to the month of November, 2022 as per letter dated 5 April, 2022 issued by the Commission.

2. Background

2.1 On 30 March, 2020, the Commission has issued Tariff Order for MSEDCL, (Case No.322 of 2019) for True-up of FY 2017-18 and FY 2018-19, provisional Truing-up for FY 2019-20, and Aggregate Revenue Requirement and Tariff for FY 2020-21 to FY 2024-25. Revised Tariff has been made applicable from 1 April, 2020.

2.2 In the Tariff Order, the Commission has stipulated methodology of levying FAC as follows:

“8.5.12 Therefore, using its powers for Removing Difficulty under Regulations 106 of the MYT Regulations, 2019, the Commission is making following changes in the FAC mechanism stipulated under Regulation 10 of MYT Regulations, 2019:

Distribution Licensee shall undertake computation of monthly FAC as per Regulation 10 of the MYT Regulations, 2019 except for treatment to be given to negative FAC as follows:

- *Negative FAC amount shall be carried forward to the next FAC billing cycle with holding cost;*
- *Such carried forward negative FAC shall be adjusted against FAC amount for the next month and balance negative amount shall be carried forward to subsequent month with holding cost;*

- *Such carry forward of negative FAC shall be continued till the accumulated negative FAC becomes 20% of monthly tariff revenue approved by the Commission in Tariff Order. In case of MSEDCL, such limit shall be Rs. 1500 crore. Any accumulated amount above such limit shall be refunded to consumers through FAC mechanism;*
- *In case such FAC Fund is yet to be generated or such generated fund is not sufficient to adjust against FAC computed for given month, then Distribution Licensee can levy such amount to the consumers through FAC mechanism.*

8.5.13 In order to maintain transparency in management and use of such FAC Fund, the Distribution Licensee shall maintain monthly account of such FAC fund and upload it on its website for information of stakeholders. Further, till date, the Distribution Licensees have been levying FAC up to the prescribed limit of 20% of variable component of tariff without prior approval in accordance with the MYT Regulations, 2015, and submitting the FAC computations on a quarterly basis within 60 days of the close of each quarter, for post facto approval. However, as the Commission has now created a FAC fund as stated above to stabilise the increase in fuel prices and power purchase costs, the Commission has modified the FAC mechanism such that the Distribution Licensees shall submit the FAC computations on a monthly basis for prior approval, irrespective of whether FAC is chargeable in a month or whether some amount is accruing to the Fund on account of negative FAC.

8.5.14 The details of the FAC as per the Regulations, shall be submitted by the 15th of the every month prior to the month on which the FAC is proposed to be levied and the Commission will endeavour to decide on the same within 10 days so that the same can be levied from the 1st of the subsequent month. This prior approval will facilitate the addressing of any difficulties that may arise in giving effect to this fund. All the details will be submitted by the Distribution Licensee as is being done for approval of FAC on post facto basis. Thus the FAC to the consumers shall now be levied with prior approval of the Commission”

- 2.3 Vide its letter dated 20 April, 2020, the Commission communicated the excel formats along with the checklist to file FAC submissions for prior approval to all Distribution Licensees. The Commission also directed all Distribution Licensees to file FAC submissions by 15th of every month prior to the month for which the FAC is proposed to be levied for prior approval.
- 2.4 Accordingly, MSEDCL has filed FAC submissions for the month of October, 2022 for prior approval. The Commission has scrutinized the submissions provided by MSEDCL and has also verified the fuel and power purchase bills provided along with its submissions.

* Other Adjustment is related to Sales to Open Access Consumer (Conventional and Renewable)

3.2 For the month of October, 2022, it is observed that actual sales of 9894.93 MU is lower as compared to the approved energy sales of 10926.99 MU.

3.3 MSEDCL has submitted the data providing actual billing and estimated billing undertaken for the calculation of total energy consumption for the month of October, 2022. As per the data, the billing of about 97.4% of sales is undertaken as per actual meter readings and balance 2.6% is assessed on an estimated basis. 100% of HT billing is undertaken on actual basis and estimation is only for LT category. The figures do not include the agriculture sales which is on estimated basis for the month of October, 2022.

3.4 The number of actual and estimated meter readings undertaken by MSEDCL for the month of October, 2022 except for agriculture consumers are as given below:

- 3.6 The Commission observes that overall sales in October, 2022 have decreased as compared to October, 2021 mainly due to decrease in HT Sales.
- 3.7 MSEDCL has considered agriculture sales are estimated based on consumption norms as per Tariff Order and previous three-year trend is used for estimation of monthly sale. The Commission while approving the FAC for the month of September, 2022 has restricted the agriculture sales to approved sales (based on the approved norm of Consumption/HP) as specified in MYT Tariff Order. MSEDCL in response to data gaps raised by the Commission has submitted the load (HP) details of agriculture connections. Further, the Commission has approved monthly sales for the agriculture connections. Accordingly, the Commission has computed the norm of consumption/HP based on the monthly approved agriculture sales and considered the norms based on monthly approved sales for allowing the sales for the month of October, 2022. Any adjustment in sales due to HP variation will be reconciled while actual data is submitted as per actual billing undertaken by MSEDCL. Based on the norms approved by the Commission in the Tariff Order, the agriculture sales - metered and unmetered approved by the Commission are as given below:

4. Power Purchase Details

- 4.1 The Commission has approved following sources in the Tariff Order for power purchase by MSEDCL.
- MSPGCL
 - Central Generating Stations i.e., NTPC, TAPP etc.
 - IPPs i.e., JSW, Adani Power, Mundra UMPP, Emco, Rattan India and Sai Wardha
 - Renewable Energy (Solar and Non-Solar)

In addition to the aforesaid, MSEDCL procures power in short term, though the said source is not approved by the Commission, in case of any shortfall of approved sources or to optimize the power purchase cost. Also, there may be some variation in real time (unscheduled interchange) which will be settled through Balancing and Settlement

Mechanism approved by the Commission.

4.3 Thus, for the month of October, 2022, total variation in power purchase cost is Rs. 536.47 Crore, out of which Rs. (696.69) Crore was on account of lower quantum (1653.10 MU) of power purchase and Rs. 1233.16 Crore was on account of higher rate of average power purchase by Rs.1.12/kWh. FAC mechanism allows only impact of variation in power purchase rate to be passed through as FAC rate over and above approved tariff. The Commission observes that decrease in power purchase with higher corresponding decrease in sales than approved by the Commission has resulted in higher distribution loss than approved by the Commission in the Tariff Order.

4.4 The detailed explanation in respect of approval of cost of power purchase of each of the source mentioned in the above table is given in subsequent paragraphs.

5. Power Purchase Cost

5.1 The Commission has sought detailed bills/invoices for all of the power purchase sources in order to verify the claim of MSEDCL with regards to average power purchase cost for the month of October, 2022. The Commission has verified the Net Purchase, Variable Cost, Fixed Charge and the Power Purchase Cost from the relevant bills/invoices received for all purchasing sources. MSEDCL has purchased power from approved sources as per the Tariff Order.

5.2 It was observed that due to planned/forced outages during the month, the availability of some of the MSPGCL and IPP generating stations was lower than normative availability.

5.3 The Commission notes that CGS stations having lower variable cost were dispatched almost to the extent of availability declared by the generator.

5.4 The Commission has also verified the PLF% and MOD rates of all the operational State Generating Stations and IPPs and has found that units having lower rates in MOD had higher PLF. The graph showing the comparison of Variable Cost in MoD Stack and monthly Plant Availability Factor and PLF for SGS and IPPs is given below:

SGS/IPP's Stations are considered for comparison and MOD Rate considered is as applicable from 17 October, 2022 to 31 October, 2022.

MSPGCL:

5.5 The Commission has observed that MSEDCL has purchased 3433.64 MU from MSPGCL Thermal and Gas Stations. It was observed that MSEDCL has purchased energy from Bhusawal-3, Parli 6-7 and Parli 8 generating stations of MSPGCL even though not included in MoD stack approved by the Commission in the Tariff Order to meet the demand due to outage of units for various reasons like coal shortage, forced outage, all thermal plants were taken on bar. Also, rates as notified for IPPs such as JSW and CGPL using imported coal were higher and hence lower schedule was given to these generators.

5.6 The total overall generation was lower than approved during the month. The monthly fixed cost was payable in line with MYT Regulations, 2019 considering the availability of the Plant. The Commission has verified that the fixed cost for all the Thermal/Gas Units as well as Hydro Units has been considered as per invoice raised by MSPGCL for October, 2022. The comparison of Actual and Approved Fixed and Variable Cost of

MSPGCL Thermal/Gas units as shown in the table below shows the impact of fixed cost due to lower actual generation.

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

5.7 The Commission has verified that fixed cost for all the Thermal/Gas Units as well as Hydro Units has been considered as per invoice raised by MSPGCL and as submitted by MSEDCL for the said units.

5.8 The Commission in its Order dated 30 March, 2020 in Case No 296 of 2019 has approved Fuel Utilisation Plan of MSPGCL. The Commission in the said Order has given in principle approval for the various measures proposed by MSPGCL including coal beneficiation and procurement of imported coal to meet the requirement of coal for maintaining normative availability and accordingly approved the variable/energy charges for the MSPGCL Stations.

5.9 The Commission notes that while approving the FUP, the washed coal and imported coal was required to be used in all the MSPGCL stations except Paras and Parli Stations. However, MSPGCL has finalised tie up for imported coal through competitive bidding from May 2022. The imported coal and washed coal was used as per FUP except at Koradi 6 and Chandrapur 3-7/ Nashik respectively in October, 2022.

5.10 MSEDCL submitted that CIMFR reports for most of the coal samples for coal supplied in October, 2022 to all the MSPGCL stations are likely to be received in January, 2023, hence MSPGCL has raised provisional FAC bill considering GCV as per the methodology submitted by MSPGCL in Case No 97 of 2020 as given below:

- a. GCV- As Billed: Consideration of certified loading end GCV data wherever available and where certified data is not available, use mid-point of declared grade GCV.
- b. GCV – As Received: GCV is considered based on the results available at each Station from their respective Station Laboratory.

Accordingly, MSPGCL has raised provisional FAC bill dated 11 November, 2022 considering the aforesaid methodology.

5.11 The comparison of Approved and Actual Energy Charge (including FAC) is as given below:

Power Station	Approved Energy Charge Rs/kWh	Actual Energy Charge Rs/kWh	Difference Rs/kWh	Difference %
Bhusawal Unit 03	4.102	6.098	1.996	48.66%

5.12 The Commission notes that for the month of October, 2022, energy charge of all stations except Paras have increased in view of usage of imported coal. The imported coal rate was higher (Rs 16200/MT to Rs 17000/MT) as compared to approved by the Commission (Rs 7000/MT to 8000/MT) in the Tariff Order leading to higher Energy Charge. As mentioned above, MSPGCL has awarded contract for washing of coal and such washed coal is being used for to Bhusawal, Koradi 8,9,10, Koradi 6, Khaperkheda 1-4 and 5 and Chandrapur 7-8 units in October, 2022. Further, actual Energy Charge is being computed considering GCV loss of 600 kCal/kg applicable from April, 2022 as allowed by the Commission in review Order dated 1 March, 2021 of MSPGCL as against 475 kCal/kg considered by the Commission while approving Energy Charge in the Tariff Order. This has also resulted in increase of Energy Charge of 2-22 Paise/kWh for the aforesaid stations.

5.13 It is also observed that Energy Charge of Uran has also increased considerably for October, 2022. This is due to the fact that prices of APM Gas have increased due to increase in notified APM gas price from \$6.10/MMBTU (up to September 2022) to \$8.57/MMBTU from October 2022 by Ministry of Petroleum and Natural Gas, Government of India.

5.14 MSPGCL has undertaken Case-4 bidding and accordingly entered into contract with Ideal Energy Projects Limited (IEPL) at Rs. Rs. 3.359/kWh for supply of 180 MW net sent out in lieu of power from one unit of at Nashik by transfer of corresponding linkage coal quantity to IEPL unit upto March 2023. The power from IEPL started from October 2022. For the month of October, 2022, IEPL has supplied 94.22 MU at Rs 3.359/kWh. The Commission has accordingly considered the said purchase of 94.22 MU for Rs 31.64 Crore at Rs 3.36/kWh.

5.15 The Commission has verified that actual quantum of power purchase and cost from the detailed summary bills/invoices submitted by MSEDCL and found to be in order.

5.16 Considering the overall cost of MSPGCL thermal/gas stations, the average power purchase cost is Rs. 6.08/kWh as against Rs. 4.27/kWh approved in the Tariff Order. The average power purchase cost is higher due to higher variable cost by Rs 1.66/kWh and fixed cost/unit by Rs 0.15/kWh due to lower generation than approved by the Commission.

5.17 Variation in power purchase expenses from MSPGCL can be divided on account of change in quantum and per unit rate as follows:

Month	Increase in Expenses for power purchase from MSPGCL (Rs. Crore)		
	On Account of change Quantum of Power Purchase	On Account of change in Per Unit rate of Power Purchase	Total
October, 2022	(438.79)	621.91	183.72

5.18 Out of above, variation on account of per unit rate is only considered for FAC computation.

NTPC:

5.19 MSEDCL has purchased total 2755.39 MUs of power from NTPC's stations as compared to approved MoD stack of 2522.41 MUs during the month of October, 2022.

5.20 The Table below shows the variation in power purchase in terms of per unit variable charge, per unit fixed charge and average power purchase cost for NTPC's generating stations for October, 2022.

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

5.21 In response to data gaps raised by the Commission in respect of increase in variable cost, NTPC submitted that due to coal shortage scenario and MoP notification, non-pit head NTPC stations (KhSTPS-II, Muada -I and II, Solapur, Gadarwara and Khargone) are utilizing imported coal for blending. Imported coal being costly, variable cost of these stations has increased than approved rates. The Commission has verified that actual quantum of power purchase and cost from the detailed summary bills/invoices submitted by MSEDCL and found to be in order and accordingly considered the same in FAC computation.

5.22 Variation in power purchase expenses from NTPC can be divided into on account of change in quantum and per unit rate as follows:

Month	Increase in Expenses for power purchase from NTPC (Rs. Crore)		
	On Account of change Quantum of Power Purchase	On Account of increased Per Unit rate of Power Purchase	Total
October, 2022	90.38	282.21	372.59

Out of above, variation on account of per unit rate is only considered for FAC computation.

IPPs

- 5.23 MSEDCL has long term PPA's with IPP's viz: JSW, CGPL Mundra, APM, Emco and Rattan India. The said PPAs are approved by the Commission and power availability from the said sources is considered as per Tariff Order issued by the Commission. Further, MSEDCL has signed PPA with Sai Wardha Power Generation Ltd (SWPGL) for 240 MW as per the Order dated 15 June 2020 in Case No 91 of 2020. SWPGL started delivering 240 MW power to MSEDCL from 5 July 2020.
- 5.24 During scrutiny of the invoices submitted by MSEDCL it was observed that there were differences in the other charges related to Change in Law as considered in FAC computations. The Commission sought clarifications on the same along with reconciliation and additional bills, if any. MSEDCL submitted the reconciliation and clarified that the aforesaid differences are mainly on account of Change in Law (CIL) claim by IPPs in addition to monthly energy bills during the respective period.
- 5.25 Change in Law (CIL) events in respect of IPPs are related to imposition of GST compensation cess, change in royalty, custom duty, change in NCDP, shortfall in domestic coal etc. These Change in Law events have been approved by the respective Commission's through various Orders, as the case may be, under the provisions of respective PPAs. MSEDCL has submitted the CIL invoices for the concerned period. Further, while scrutinizing the CIL bills it was observed that the amount shown in CIL bills/invoices were not matching against the respective amount considered in FAC computation. In fact, the amounts considered in FAC calculations were observed to be lesser than that of CIL bills/invoices except for claim related to SHAKTI. Change in Law claims raised by the generators are according to their technical parameters, whereas MSEDCL works out the CIL claim amount based on normative / actual parameters. These parameters include SHR of power plant, Auxiliary consumption, GCV of coal, etc. which have impact of coal consumption. Therefore, there is difference in CIL amount claimed by generator and that worked out by MSEDCL. MSEDCL has submitted the detailed reconciliation of CIL, as summarised in Table below:

IPP	As per Vendor – Rs Cr			As per MSEDCL – Rs Cr		
	CIL	Shakti	Total	CIL	Shakti	Total

Total	113.27	430.58	543.84	136.21	233.61	369.82

5.26 Thus, on an overall basis considering the above impact, the average power purchase cost from IPPs stands at Rs. 5.08/kWh as compared to monthly approved rate of Rs. 3.99/kWh for the month of October, 2022. The said cost is being considered for the FAC computation based on the scrutiny of invoices and details submitted by MSEDCL.

5.27 The table below shows the variation in power purchase in terms of per unit variable charge, per unit fixed charge and average power purchase cost for IPPs for October, 2022.

5.28 Variation in power purchase expenses from IPPs can be divided into increased on account of change in quantum and per unit rate as follows:

Month	Increase in Expenses for power purchase from IPP (Rs. Crore)		
	On Account of change Quantum of Power Purchase	On Account of increased Per Unit rate of Power Purchase	Total
October 2022	(120.61)	297.05	176.44

Out of above, variation on account of increased per unit rate is only considered for FAC computation.

Short Term Power Purchase

5.29 MSEDCL has purchased 282.48 MU at average rate of Rs. 4.42/kWh from Power Exchange. The Commission notes that it has not approved any short-term purchase in the Tariff Order. However, MSEDCL has purchased short term power to meet the demand in view of lower availability of contracted thermal Plants. The Commission has verified the details of power purchase cost from the Daily Obligation Summary Report issued by Power Exchange and accordingly considered the said purchase in FAC computation of October, 2022.

Must-Run Sources

5.30 The sources of Must Run Stations include KAPP, TAPP 1&2, TAPP 3&4, SSP, Pench, Dodson I and Dodson II, Renewable Energy and MSPGCL Hydro (including Ghatghar) etc.

5.31 A detailed comparison of approved against actual purchase from Must Run Stations is shown in Table below:

**Variable Cost for Hydro Power is approved in MSPGCL Order whereas total cost is considered under Fixed Cost in the Tariff Order of MSEDCL.*

5.32 As seen from the aforesaid table, MSEDCL has purchased 158.09 MU of Hydro Power as per variable cost approved by the Commission. This being the cheapest source of power helps in reduction of overall average cost of power purchase. The Koyna generation works on the principle of water year (1st June to 30 May) and hence the available water is used for the peak requirement based on the requirement of MSEDCL. It is observed that hydro purchase is lower than 279.98 MU approved by the Commission due to rains during the month and demand was catered from the thermal & other must run generation and Koyna hydro was utilized during peak demand hours as per daily requirements.

5.33 It is observed that Solar and Non-Solar energy purchased in October, 2022 i.e., 1194.48 MU was lower than approved i.e., 1832.30 MU by the Commission in the Tariff Order. The generation is lower due lower solar capacity addition due to pandemic than considered by the Commission in the Tariff Order. MSEDCL has not purchased any RECs in the month of October, 2022. The Commission observes that MSEDCL has purchased 6.17 MU of RE power from G-DAM Market at Rs 4.25/kWh. The Commission has considered the renewable purchase as per details submitted by MSEDCL and invoices of power purchased from SECI, NVVN and other IPPs.

ISTS Charges - CTU

5.34 As per Regulation 10 of the MYT Regulations, 2019, any variation in Inter-State Transmission Charges shall be pass through under FAC component of Z-factor charge as an adjustment in Tariff on monthly basis. The ISTS charges paid by MSEDCL to Central Transmission Utility of India Ltd (CTU) are considered under FAC computation. Accordingly, the Commission has considered the amount of Rs. 246.91 Crore towards ISTS charges payable to payable to CTU as against Rs. 305.16 Crore approved in the Tariff Order towards FAC computation as per invoice raised by CTU.

Sale of Power

5.35 MSEDCL has sold surplus power to the extent of 0.62 MU during the month of October, 2022 on IEX and has earned revenue of Rs. 0.24 Crore. The Commission has considered the actual quantum and revenue against surplus sale.

Deviation Quantum and Cost

5.36 MSEDCL has submitted that the deviation quantum (underdrawl) as per invoice raised by MSLDC is 165.10 MU and corresponding realisation is Rs 25.54 Crore. Accordingly, the Commission has considered the said Deviation quantum and cost in the FAC computation for the month of October, 2022.

Approved Cost of Power Purchase

5.37 In view of the above, the overall cost approved in the Tariff Order and actual for the month of October, 2022 considered by the Commission is as shown below:

Variable charge inclusive of other charges (Fuel adjustment charges, CIL etc.)

5.38 The overall power purchase cost is higher mainly due to variable cost of power supplied by MSPGCL, NTPC and IPPs. However, the higher variable cost is offset by lower fixed cost/unit due to higher despatch than approved by the Commission from NTPC and lower fixed cost paid to MSPGCL and IPPs due to lower Availability.

5.39 Considering the above, the Commission allows the average power purchase cost of Rs.5.43/kWh for the month of October, 2022 as against Rs. 4.21/kWh approved in the Tariff Order.

6. FAC on account of fuel and power purchase cost (F)

6.1 The Commission has worked out the average power purchase cost for the month of October, 2022 as shown in above table. The same has been compared with the average power purchase cost approved by the Commission in Tariff Order dated 30 March, 2020 and accordingly arrived at differential per unit rate at which Z_{FAC} is to be passed on to the consumers.

6.2 The following table shows the Z_{FAC} worked out by the Commission on account of difference in fuel and power purchase cost for the month of October, 2022.

S. No.	Particulars	Units	October, 2022

4	Net Power Purchase	MU	10,996.69
5	Change in fuel and power purchase cost (=3 x 4/10)	Rs. Crore	1,233.16

7. Adjustment for over recovery/under recovery (B)

7.1 The adjustment for over recovery/under recovery has to be done for the (n-4) month as per provisions of MYT Regulations, 2019. Since any over recovery/under recovery for MSEDCL is spilt into Ag and Non-Ag and has to be adjusted towards levy of FAC for Ag and Non-Ag, the Commission has not considered any adjustment towards the same for October, 2022 as there is no FAC to be levied in October, 2022.

8. Carrying Cost for over recovery/under recovery (C)

8.1 As explained in the above paragraph in absence of any levy for October, 2022 as per letter dated 5 April, 2022, the Commission will consider any over recovery/under recovery along with carrying cost while approving FAC for the month of November, 2022.

9. Disallowance due to excess Distribution Loss

9.1 Regulation 10.8 of MYT Regulations, 2019 provides for FAC amount to be reduced in case the actual distribution loss for the month exceeds the approved distribution loss. The relevant extract is reproduced as follows.

“10.8 The total Z_{FAC} recoverable as per the formula specified above shall be recovered from the actual sales in terms of “Rupees per kilowatt-hour”:

Provided that, in case of unmetered consumers, the Z_{FAC} shall be recoverable based on estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

Provided further that, where the actual annual sliding distribution losses of the Distribution Licensee exceed the level approved by the Commission, the amount of Z_{FAC} corresponding to the excess distribution losses (in kWh terms) shall be deducted from the total Z_{FAC} recoverable”

9.2 The following table provides the comparison of approved and actual distribution loss and disallowance due to excess distribution loss if any.

7	Disallowance of FAC due to excess Distribution Loss	Rs. Crore	-	92.83	-	-

9.3 As seen from the above table, the standalone distribution loss for the month of October, 2022 is lower at 12.16% as against approved loss of 14%. The standalone loss for October, 2022 is lower mainly due to estimated Ag sales and sales considered as per billing cycle whereas power purchase is considered for the standalone month. Also, the Commission has restricted the Ag Sales as per norms approved in the Tariff Order leading to higher loss.

9.4 The comparison of Distribution Loss for the April, 2022 to October, 2022 as compared to last year is as given below:

Particulars	FY 2022-23	FY 2021-22
<i>Approved Loss</i>	<i>14%</i>	<i>16%</i>
April	30.33%	30.44%
May	26.19%	27.15%
June	16.83%	13.31%
July	7.35%	16.05%
August	15.19%	19.36%
September	14.98%	13.93%
October	12.16%	9.86%

Particulars	FY 2022-23	FY 2021-22
Cumulative up-to October	18.68%	19.11%

9.5 As Annual Sliding Distribution Loss of 21.83% is higher than the approved loss of 14%, the Commission has disallowed Rs 92.83 Crore towards the same.

5	Total FAC based on category wise and slab wise allowed to be recovered in the billing month	Rs. Crore	-	-

10.2 The standalone FAC for the month of October, 2022 is Rs 1140.33 Crore which will added to the FAC Fund. The approved amount is lower than claimed by MSEDCL in view of higher disallowance due to excess distribution loss after allowing Ag Sales as per norms approved by the Commission in the Tariff Order and under-recovery amount will be considered while approving the FAC for November, 2022.

11. Recovery from Consumers:

11.1 Regulation 10.9 of MYT Regulations, 2019 provides for methodology of recovery of FAC charge from each category of consumers. The relevant extract is reproduced as below.

“10.9 The ZFAC per kWh for a particular Tariff category/sub-category/consumption slab shall be computed as per the following formula: —

$$Z_{FAC\ Cat} (Rs/kWh) = [Z_{FAC} / (\text{Metered sales} + \text{Unmetered consumption estimates} + \text{Excess distribution losses})] * k * 10,$$

Where:

Z_{FAC Cat} = Z_{FAC} component for a particular Tariff category/sub-category/consumption slab in ‘Rupees per kWh’ terms;

k = Average Billing Rate / ACOS;

Average Billing Rate = Average Billing Rate for a particular Tariff category/sub-category/consumption slab under consideration in ‘Rupees per kWh’ as approved by the Commission in the Tariff Order:

Provided that the Average Billing Rate for the unmetered consumers shall be based on the estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

ACOS = Average Cost of Supply in ‘Rupees per kWh’ as approved for recovery by the Commission in the Tariff Order:

Provided that the monthly Z_{FAC} shall not exceed 20% of the variable component of Tariff or such other ceiling as may be stipulated by the Commission from time to time:

Provided further that any under-recovery in the Z_{FAC} on account of such ceiling shall be carried forward and shall be recovered by the Distribution Licensee over such future period as may be directed by the Commission....”

11.2 The Commission allows the FAC amount of Rs. 1140.33 Crore for the month of October, 2022 to be added to the FAC Fund.

11.3 The Commission in its approval for the month of September, 2022 has directed MSEDCL to carry forward the approved FAC amount of Rs. 1106.44 Crore to be accumulated as FAC Fund to be carried forward to the next billing cycle with carrying cost. The opening balance of FAC fund along with carrying cost is Rs. 1114.92 Crore.

- 11.4 Considering the approved FAC amount of Rs. 1140.33 Crore for the month of October, 2022 and same after being added to the FAC fund, the total balance amount to be recovered is Rs. 2255.25 Crore. The said amount is being carried forward and will be accumulated up to the month of November, 2022 as per letter dated 5 April, 2022 issued by the Commission. While approving FAC for the month of November, 2022, the Commission will allow the recovery of cumulative amount in March, 2023 along with carrying cost.
- 11.5 In view of the above, the per unit Z_{FAC} for the month of October, 2022 to be levied on consumers of MSEDCL in the billing month of December, 2022 is **Nil**.
