

# महाराष्ट्र विद्युत नियामक आयोग Maharashtra Electricity Regulatory Commission

Ref. No. MERC/FAC/2023-24/0564

Date: 02 November, 2023

To, **The Managing Director, KRC Infrastructure and Projects Private Ltd.,** Raheja Tower, Level-9, Block G, Plot No. C-30, Bandra Kurla Office Complex, Bandra (E), Mumbai – 400 051

Subject: Post facto approval of Fuel Adjustment Charges (FAC) submissions of KRCIPPL for the months of April 2022, May 2022 and June 2022.

Reference:

1. KRCIPPL's FAC submission for the months April 2022, May 2022 and June 20222 vide email dated 30 August, 2022.

2. Data gaps raised vide email dated 20 June 2023.

3. KRCIPPL's response to queries raised vide email dated 3 July, 2023.

## Sir,

Upon vetting the FAC calculations for the months of April 2022, May 2022 and June 2022 as mentioned the above reference, the Commission has accorded approval for charging FAC to its consumers as shown in the table below:

Month	April 2022	May 2022	June 2022
ZFAC allowed for recovery (Rs. Crore)	-	0.069	0.144

In the previous FAC report, the Commission had allowed the accumulation of FAC amount of Rs. (1.55) Crore at the end of March 2022 which shall form part of FAC Fund and was carried forward to next FAC billing cycle with holding cost. This was utilized against the FAC allowed for the month of April 2022 and partially in May 2022. Post adjusting the accumulated FAC and allowing the recovery of FAC for May 2022 and June 2022, the Commission allows the carry forward FAC of Rs. 0.78 Crore for the month of June 2022. Further, as directed in the said Order, KRCIPPL shall maintain the monthly account of FAC Fund and upload it on its website to maintain transparency of FAC Fund and also for information of all the stakeholders.

Yours faithfully,

(Dr. Rajendra G. Ambekar) Executive Director, MERC

# ANNEXURE Detailed Vetting Report Date: 02 November, 2023 POST FACTO APPROVAL FOR FAC CHARGES FOR THE MONTHS OF APRIL 2022, MAY 2022 AND JUNE 2022

Subject: Post facto approval of Fuel Adjustment Charges (FAC) submissions of KRCIPPL for the months of April 2022, May 2022 and June 2022.

- **Reference:** 1. KRCIPPL's FAC submission for the months of April 2022, May 2022 and June 2022 vide email dated 30 August, 2022.
  - 2. Data gaps raised vide email dated 20 June 2023.
  - 3. KRCIPPL's response to queries raised vide email dated 3 July, 2023.

#### 1. FAC submission by KRCIPPL:

1.1 KRCIPPL has made FAC submissions for the months of April 2022, May 2022 and June 2022 as referred above. Upon vetting the FAC calculations, taking cognizance of all the submissions furnished by KRCIPPL, the Commission has accorded post facto approval for the FAC amount to be charged in the billing months of June 2022, July 2022 and August 2022.

## 2. <u>Background</u>

- 2.1 On 30 March, 2020 the Commission has issued Tariff Order in respect of KRCIPPL (Case No. 329 of 2019) for approval of Aggregate Revenue Requirement and Multi Year Tariff for the Control Period from FY 2020-21 to FY 2024-25. Revised Tariff has been made applicable from 1 April, 2020.
- 2.2 Vide its letter dated 20 April, 2020, the Commission communicated the excel formats and guiding principles for filing of FAC submissions to all Distribution Licensees including SEZs. The Commission also directed all Distribution Licensees to submit FAC computations, including details pertaining to variation in fuel cost of generators for the approval of the Commission.
- 2.3 The summary of the FAC Vetting Report approvals granted by the Commission till date is given below:
  - Prior approval to the FAC for the month of April, 2020 vide FAC vetting Report dated 7 June, 2020.
  - Post-facto approval to the FAC for the months of May and June, 2020 vide FAC vetting Report dated 30 September, 2020.
  - Post-facto approval to the FAC for the months of July 2020, August 2020, and September 2020 vide FAC vetting Report dated 08 December, 2020.
  - Post-facto approval to the FAC for the months of October 2020, November 2020 and December 2020 vide FAC vetting Report dated 25 March, 2021.

Page 2 of 22

- Post-facto approval to the FAC for the month of January to March, 2021 vide FAC Vetting Report dated 10 June, 2021.
- Post-facto approval to the FAC for the month of April 2021, May 2021, and June 2021 vide FAC Vetting Report dated 11 October, 2021.
- Post-facto approval to the FAC for the month of July 2021, August 2021, and September 2021 vide FAC Vetting Report dated 6 January, 2022.
- Post-facto approval to the FAC for the month of October 2022, November 2022 and December 2022 vide FAC Vetting Report dated 28 June, 2023.
- Post-facto approval to the FAC for the month of January 2022, February 2022 and March 2022 vide FAC Vetting Report dated 24 July, 2023.
- 2.4 As per provisions of MYT Regulations, 2019 a Distribution Licensee (SEZ) is required to obtain post-facto approval of the Commission on a quarterly basis for FAC charges within 60 days of close of each quarter. Accordingly, vide its letter dated 30 August, 2022, KRCIPPL has filed FAC submissions for the months of April 2022, May 2022 and June 2022 for post-facto approval. The Commission has scrutinized the submissions provided by KRCIPPL and has also verified the fuel and power purchase bills provided along with its submissions.

## 3. Energy Sales of the Licensee

- 3.1 In the MYT Order passed by the Commission in Case No. 329 of 2019, the Commission has approved revised tariffs to maintain zero cross subsidy across tariff categories.
- 3.2 The net energy sales within licence area as submitted by KRCIPPL in the FAC submission and as approved by the Commission are as shown in the Table 1 below:

Consumer Category	Approved by	Monthly	Actual Sales (MU)			
	the Commission (MU)	Approve d (MU)	Apr 2022	May 2022	Jun 2022	
	(I)	(II=I/12)	(III)	(IV)	(V)	
HT Category			at and			
HT- I Industrial	42.09	3.51	1.47	1.65	1.60	
HT-II Commercial	1.18	0.10	-	-	-	
HT III – Electric Vehicle (EV)			0.00	0.00	0.00	
Charging Stations						
LT Category	a incontration of the	t toka of the	onder the	HIEGH N		
LT-II(A) Commercial (0-20 kW)	1020	and motion.	0.00	0.00	0.00	
LT-II (B) Commercial (above 20 kW)	4.47	0.37	0.01	0.02	0.02	
LT-III (A) Industrial (0-20 kW)		-		-	-	
LT-III (B) Industrial (above 20 kW)	in the two mustices		0.32	0.36	0.36	
Total	47.74	3.98	1.80	2.04	1.98	

Table 1: Energy Sales approved and Actual in MUs

3.3 It can be observed from above Table 1 that the actual sales during the months of April 2022, May 2022 and June 2022 are 1.80 MU, 2.04 MU and 1.98 MU respectively which is 54.73%,

**48.81%** and **50.31%** lower than approved monthly energy sales of 3.98 MU for April 2022, May 2022 and June 2022. The variation was primarily observed in all categories except LT-III (B) Industrial (above 20 kW). However, the major variation was observed in the HT-I Industrial, HT-II Commercial and LT II B, which is due to the continuation of impact work for home in IT industry and seasonal variation. Moreover, miniscule quantum of sale in HT III category is also observed in the months of April 2022 to June 2022. However, an increase of around 57% growth in sales has been witnessed as compared to Quarter-to-quarter basis.

#### 4. <u>Power Purchase Details</u>

- 4.1 KRCIPPL is a deemed Distribution Licensee notified by the Commission for its IT & ITeS SEZ located at Village Kharadi, Taluka Haveli, District Pune. KRCIPPL does not own or operate any generating stations. Accordingly, KRCIPPL is required to procure power from outside sources in order to fulfil the electricity demand of its consumers.
- 4.2 Power procurement from Kreate Energy (I) Pvt. Ltd.: KRCIPPL had a short term PPA with GMR Energy Trading Limited which was valid till May 2020, and which was subsequently extended till March 2021 with approval of the Commission. Subsequently, the Commission in its Order dated 30 June, 2021 in Case No. 69 of 2021 has approved the combined power procurement of for MBPPL, GEPL and KRCIPPL for FY 2021-22 on short-term basis. Accordingly, the Commission has provided the approval of Power Purchase Agreement and Adoption of Tariff determined through transparent bidding process for a Short-Term procurement of power up to 14 MW (RTC) for KRC discoms for one year starting from 1 July, 2021 to 30 June, 2022 through combined power procurement. In the said order, the quantum estimated for KRCIPPL is upto 3 MW (Up to 2 MW RTC and up to 1MW between 0800 and 2300 hours). The relevant extract is as given below:

"Accordingly, the Commission approves PPA dated 27 May 2021 entered between KRC DISCOMs (Mindspace Business Parks Private Limited; Gigaplex Estate Private Limited; KRC Infrastructure and Projects Private Limited) and Kreate Energy (I) Pvt. Ltd. – Power Department of Sikkim."

4.3 However, KRCIPPL has not purchased power from Kreate Energy (I) Pvt. Ltd. (KEIPL) and instead purchased power from GMR Energy Trading Limited (GMRETL) on Bilateral basis. On 7 March 2022, KEIPL requested KRC Discoms to provide schedule for the month of April 2022. KRC Discoms sent the schedule on 9 March 2022, and have sent consistent reminders to KEIPL to schedule power for the month of April 2022. However, KRC Discoms did not receive any confirmation for the application of power. Finally on 31 March 2022, KEIPL informed its non-availability and non-scheduling of power for the month April 2022 due to constraints in generating power due to unavoidable circumstances and informed that KEIPL is the facilitator for scheduling of power from ultimate sellers of the buyers. Thus KEIPL, will not be able to supply power to GEPL, KRCIPPL and MBPPL for the period 1 April 2022 to 30 April 2022.

Page 4 of 22

- 4.4 Under such circumstances, KRC discoms initiated steps to meet their electricity demand from power exchange. Further in response to KEIPL's notice on breach of PPA, KRC discoms directed KEIPL to comply with the obligations, failing to which KRC Discoms shall be constrained to take all acts as it may deem necessary including encashment of Contract Performance Guarantee (CPG). KRC discoms informed the Commission regarding procurement of power from power exchange due to non-supply of power by KEIPL for the month of April 2022. KRC discoms diligently explored various alternative options, including Inter-Discom trade through the DSM portal, however, KRC discoms did not find any suitable option to meet its power requirement, other than Power Exchange. In view of non-supply of power to KRC discoms in April 2022, KRC discoms have encashed the bank Guarantees (CPGs) received from KEIPL against PPA dated 27 May 2021. The CPGs amounting to Rs. 1.56 Crore, Rs. 1.08 Crore and Rs. 0.72 Crore have been adjusted in May 2022. Further for the months of May 2022 and June 2022, KRC discoms followed-up with KEIPL to schedule power, however, KEIPL neither responded to the letters nor scheduled the power.
- 4.5 KRCIPPL has purchased power from GMR Energy Trading Limited (GMRETL) on Bilateral basis at the rates of Rs. 6.63/kWh in the month of April 2022, Rs. 12.57/kWh in the month of May 2022 and Rs. 6.56/kWh in the month of June 2022 which are higher than the power procurement cost of Rs. 3.92/kWh as approved by the Commission in Tariff Order in Case No. 329 of 2019 from the long/medium-term sources.
- 4.6 In this regard, the KRC Discoms had also filed a petition with the Commission in the matter of Case No. 138 of 2022 on 22 June, 2022 seeking approval of the Commission for undertaking combined power purchase at Power Exchange linked rates for the period from July 2022, till alternative arrangements are in place. While adjudicating the matter, the Commission had gone through the details regarding non-supply of power by the contracted source i.e., Kreate Energy during the period April 2022 to June 2022 and the need for procuring power from available alternative source, albeit at higher cost than the approved power purchase cost. In this regard the Commission in its analysis and rulings in the Order in Case No. 138 of 2022 had noted the following:

"11. Thus, failure of M/s Kreate Energy (I) Pvt. Ltd to supply power as per contract during the period of April to June 2022 and non-successful bidding process has resulted into KRC DISCOMs to depend on Power Exchanges for meeting its consumer demand. Further due to high demand, bids for all time blocks were not getting cleared on power exchanges and hence during that period, KRC DISCOMs had to depend on DG Set for maintaining continuity of power supply to its consumers. To avoid such situations, KRC DISCOMs entered into exchange linked bilateral contract with M/s GMR Energy Trading Ltd and has requested the Commission to allow such contract till it successfully selects supplier through bidding process.

12. The Commission notes that exchange linked bilateral contract is undertaken outside the power market platform. Such contract does not strictly fall under Section 62 (tariff determined by the Commission as per Tariff Regulations) or Section 63 (tariff discovered through competitive bidding process) of the Electricity Act, 2003. The Commission has

been considering such contracts for pass through in power purchase expenses as such contracts form very small quantum of total power purchase basket of Distribution Licensee and tariff is linked to the rates that are transparently discovered in power exchange, beside most of the time some discount is also offered by seller in such contracts. But in the present case, KRC DISCOMs have proposed to meet all its power purchase quantum through such exchange linked contracts. In the normal course, such arrangement is not advisable, and this would not have been allowed. But considering the efforts taken by KRC DISCOMs for procurement of power through competitive bidding, and the fact that during high demand period, bid quantum was not getting cleared on power exchange platform forcing them to supply power from DG set is neither economical nor it is viable for longer periods, the Commission deems it fit to allow such exchange linked contracts till KRC DISCOMs successfully discovers tariff in due bidding process. The Commission also notes that KRC DISCOMs are procuring green power from GDAM/GTAM market segment on power exchanges. Such green power procurement is meeting part of its load requirement. Also, such exchange linked contracts and green power procurement from exchange is also helping KRC DISCOMs to maintain Grid Discipline by not overdrawing power from the Grid.

13. The Commission also notes that such exchange linked contracts entered by KRC DISCOM have charged premium (50 paise/unit) over the exchange price for certain period (7 days). KRC DISCOM have justified it as during that period its contracted supplier refused to supply the power and its bids on power exchanges were not getting cleared for all the time blocks, hence to maintain continuity in power supply, KRC DISCOM had to agree to such premium. In this regard, the Commission notes that KRC DISCOM has separately filed Petition in Case No. 162 of 2022 seeking compensation towards increased power purchase expenses on account of non-supply of power by its supplier, the Commission will decide on the issue of allowing such premium as passthrough during that proceeding.

14. Having allowed exchange linked contracts as above, the Commission notes that price being discovered on power exchange during recent past is much higher than average power procurement rate (Rs. 3.92 per unit) approved in MYT Orders of KRC DISCOMs. This will ultimately impact the consumer tariff through FAC mechanism or truing up process (if full expenses cannot be allowed due to FAC ceiling) in upcoming Mid Term Review process which will ultimately reduce the electricity tariff advantage vis-à-vis tariff applicable to parallel licensee in that area. Therefore, to remain competitive and protect interest of their consumers, KRC DISCOMS shall take extra efforts for finding cheaper and reliable source of power supply. Hence, the Commission allows such sole power procurement from exchange linked contracts only for FY 2022-23. KRC DISCOMs shall ensure that firm source of supply is contracted before March 2023."

4.7 Accordingly, while the Commission has allowed the procurement of power through exchange linked contracts, the matter of allowing the premium charged by the supplier as a pass through

Page 6 of 22

in tariff will be decided by the Commission in Case no. 162 of 2022 which was sub-judice. The impact of the Commission's Order in Case No. 162 of 2022 will be captured in the future FAC Orders or truing up Orders for FY 2022-23, as deemed appropriate by the Commission.

- 4.8 Further, KRCIPPL has also procured RE power through IEX in the GDAM during the months of April 2022, May 2022 and June 2022. KRCIPPL purchased 0.20 MUs and 0.29 MUs of Solar and Non-Solar Power in April 2022 at an average rate of Rs. 7.95/kWh. Similarly, KRCIPPL purchased 0.27 MUs and 0.27 MUs of Solar and Non-Solar Power in May 2022 at an average rate of Rs. 5.94/kWh and 0.37 MUs and 0.27 MUs of Solar and Non-Solar Power in June 2022 at an average rate of Rs. 6.59/kWh.
- 4.9 In addition to the above, KRCIPPL has also considered Non-Solar RECs equivalent to 1.85 MU purchased in January 2022 at an average rate of Rs. 1.02/kWh. KRC DISCOMs had submitted in letter dated 19<sup>th</sup> July 2022 regarding their common reply to Queries raised that they had inadvertently not considered the amount incurred on purchase of RECs during FAC computation of Q4 of FY 21-22 and they wish to claim the same as part of FAC of June 2022.
- 4.10 The Commission notes that KRCIPPL has purchased of RE power through the power exchanges to meet the RPO obligations along with REC in the month of June 2022 and only RE power in the months of April 2022 and May 2022. The Commission in its Order in Case no. 231 of 2020 dated 23 January, 2021 has also permitted the KRC DISCOMs to procure RE power before FY 2022-23, so that the benefit of RE purchase can be passed on to the consumers. The power purchase has been through the power exchanges where the prices are market driven and competitively discovered.
- 4.11 KRCIPPL has also procured 0.06 MU, 0.87 MU and 1.04 MU of power from Power Exchange at average rates of Rs. 12.37/kWh, Rs. 6.11/kWh and Rs. 7.88/kWh during the months of April 2022, May 2022 and June 2022, respectively. KRCIPPL has submitted that the increase in demand has necessitated power procurement through Power Exchange because the contracted source was unavailable.

Sr. No.	Particular	Compliance
1	Purchase from Approved Source	<b>No.</b> KRCIPPL has not procured power from Kreate Energy (I) Pvt. Ltd during April 2022, May 2022 and June 2022 even though the agreement is valid for the period of 1 July 2021 to 30 June 2022.
2	Merit Order Dispatch	<b>Yes.</b> KRCIPPL has only one source of power i.e., Kreate Energy (I) Pvt. Ltd., which has been contracted on short term basis. KRCIPPL has followed merit order for scheduling of power and preference was given to cheapest power.
3	Fuel Utilization Plan	Not applicable. All the sources of power procurement fall under Section 63 of EA, 2003.

4.12 Summary of power purchase of KRCIPPL is as under:

Sr. No.	Particular	Compliance					
4	DSM Pool	KRCIPPL injected 0.02 MU, 0.01 MU and 0.02 MU in the mon April 2022, May 2022 and June 2022 respectively into DSM KRCIPPL had submitted that it had injected 0.014 MU into pool in the month of May 2022, however, on scrutiny of docur and in reply to data gaps, the energy injected is 0.005 MU ar Commission has considered the same for approval.

## 5. Power Purchase Cost:

- 5.1 The Commission has scrutinised the detailed bills/invoices submitted for power purchase during the month of April 2022, May 2022 and June 2022, in order to verify the claim of KRCIPPL regarding Average Power Purchase Cost (APPC). The Commission has verified the actual as well as approved Net Purchase (MUs), Variable Cost (Rs./kWh) and Power Purchase Cost considered in FAC computation from the invoices and applicable MYT Order respectively.
- 5.2 The Power Purchase cost incurred in April 2022, May 2022 and June 2022 is Rs. 1.35 Crore, Rs. 1.78 Crore and Rs. 1.70 Crore respectively, which is higher than the approved monthly Power Purchase cost of Rs. 1.57 Crore by the Commission each for the months May 2022 and June 2022, respectively but lower for the month of April 2022 due to lesser quantum.
- 5.3 Kreate Energy (I) pvt. ltd.: The Commission notes that KRCIPPL has not purchased power from Kreate Energy (I) Pvt. Ltd., for the months of April 2022, May 2022, and June 2022 even though the PPA is valid from 1 July, 2021 to 30 June, 2022 and the quantum estimated for KRCIPPL is upto 3 MW (Up to 2 MW RTC and up to 1MW between 0800 and 2300 hours). However, in line with the terms of the contract, an amount of Rs. 0.72 crore related to Contract Performance Guarantee (CPG) which was invoked is reduced in power purchase cost of April 2022.
- 5.4 **Bilateral purchases from GMR Energy Trading Limited (GMRETL):** The Commission notes than KRCIPPL has purchased 1.36 MU, 0.73 MU and 0.43 MU of power for the month of April 2022, May 2022 and June 2022 from GMR Energy Trading Limited on Bilateral basis and the average rate of power purchase was significantly high at Rs. 11.92/kWh without considering the Kreate CPG invoke amount and Rs. 6.63/kWh after considering the Kreate CPG invoke amount during the month of April 2022 and Rs. 12.57/kWh and Rs. 6.56/kWh during the months of May 2022 and June 2022 respectively because of non-availability of its contracted source.
- 5.5 The Commission has verified the bills from the power purchase bills for M/s GMR Energy.
- 5.6 Power procurement through Exchange and Other Peak Resource: KRCIPPL has procured 0.06 MU, 0.87 MU and 1.04 MU from IEX for the months of April 2022, May 2022 and June 2022, respectively, to meet the peak demand from DAM / RTM / TAM products available on IEX platform. Though these sources contributed to 3.24%, 40.84% and 50.18% of the total power purchase during the months of April 2022, May 2022 and June 2022 respectively, however, the average rate of power purchase was high at Rs. 12.37/kWh, Rs.

Page 10 of 22

6.11/kWh and Rs. 7.88/kWh in April 2022, May 2022 and June 2022, respectively. The contribution of power exchange purchases is higher in May 2022 and June 2022 because of non-availability of its contracted source. The higher cost of purchase from exchange reflects the average price trends observed in the power exchange in the month of April 2022.

Figure 1: Exchange price trends (RTC)

5.7 Renewable Sources: The Commission has approved Rs. 0.24 Crore each for April 2022, May 2022 and June 2022 for purchase of RE power to meet the Renewable Purchase Obligation. KRCIPPL has purchased RE Solar and RE Non-Solar during the months of April 2022, May 2022 and June 2022. The RE Solar purchase quantum was 0.20 MU at a power purchase rate of Rs. 7.95/kWh in April 2022, 0.27 MUs at the rate of Rs. 5.94/kWh in May 2022 and 0.37 MUs at the rate of Rs. 6.59/kWh in June 2022. Similarly, the RE Non-Solar purchase quantum was 0.29 MU at a power purchase rate of Rs. 7.95/kWh in May 2022 and 0.27 MU at the rate of Rs. 5.94/kWh in June 2022. The Commission in its MYT Order in Case no. 328 of 2019 had approved purchases of actual RE power for FY 2022-23.

In addition to the above, KRCIPPL has also considered Non-Solar RECs equivalent to 1.85 MUs purchased in January 2022 at an average rate of Rs. 1.02/kWh. KRC DISCOMs had submitted in letter dated 19<sup>th</sup> July 2022 regarding their common reply to Queries raised that they had inadvertently not considered the amount incurred on purchase of RECs during FAC computation of Q4 of FY 21-22 and they wish to claim the same as part of FAC of June 2022. For the month of May 2022, KRCIPPL had submitted APPC from solar and non-solar sources at Rs. 5.99/kWh and Rs. 5.90/kWh respectively, however, on scrutiny of documents submitted, it is observed that the APPC from both sources is Rs. 5.94/kWh each and the commission has used the corrected rates for calculations.

5.8 Accordingly, KRCIPPL has sourced the RE Solar and RE Non-Solar Power from the exchange (GDAM) to meet the RPO obligation.

- 5.9 The Commission notes that the price of power is competitively discovered for the power sourced from the power exchange and KRCIPPL has provided all the necessary supporting documents for verification of the cost. Accordingly, the Commission approves inclusion of the power purchased from RE sources for recovery through the FAC mechanism.
- 5.10 **DSM Pool:** KRCIPPL has injected 0.02 MU, 0.01 MU and 0.02 MU in the DSM pool in the months of April 2022, May 2022 and June 2022, respectively. KRCIPPL had submitted that it had injected 0.014 MU into DSM pool in the month of May 2022, however, on scrutiny of documents and reply to data gaps the total energy is 0.005 MU and the Commission has considered the same for approval.
- 5.11 The Commission has also considered the average price of the power in the DSM pool (Rs. 6.61/kWh and Rs. 4.52/kWh) as submitted by the Licensee for FAC computation along with the supporting documentation for April 2022 and June 2022. However, for the month of May 2022, KRCIPPL had submitted APPC of DSM pool at Rs. 3.33/kWh. But, as discussed above, Commission has reworked the same at Rs. 6.49/kWh.
- 5.12 The Commission has noted that KRCIPPL has followed Merit Order Dispatch for scheduling of power and all sources are scheduled according to SLDC instructions.
- 5.13 No sale of surplus power was done during the period April 2022 to June 2022.
- 5.14 Approved Cost: The Commission has noted that KRCIPPL has procured no quantum of power from its approved sources due to non-availability of its contracted source, Kreate Energy (I) Pvt. Ltd which has resulted in higher power purchase cost and increased Average power purchase cost for the months of April 2022 to June 2022. Instead, KRCIPPL has purchased power from GMR Energy on bilateral basis at Rs. 6.63/kWh in April 2022, Rs. 12.57/kWh in May 2022 and Rs. 6.56/kWh in June 2022 which is higher than the Power procurement cost of Rs. 3.92/kWh as approved by the Commission in Tariff Order in Case No. 329 of 2019 from the medium-term source.
- 5.15 However, the APPC during the period April 2022 to June 2022 is higher due to purchase of higher cost power, both conventional and RE, from power exchange to meet the higher demand in April 2022 to June 2022.
- 5.16 The details of the overall cost approved and actual for the months of April 2022, May 2022 and June 2022 respectively, as per MYT Order is as shown in the Table 2 below:

Source		Power Purchase Quantum (MU)	Fixed Cost (Rs. Crore)	Fixed Cost (Rs./kW h)	Variable Cost (Rs. Crore)	Variabl e Cost (Rs./k Wh)	Total Cost (Rs. Crore)	APPC (Rs./k Wh)

-	Citta Acrebia	May 2022		8.30	
		June 2022		8.17	

#### Table 3: Summary of reasons for rate variation for various power sources

5.19 Considering the above, the Commission allows the average power purchase cost of Rs. 7.16/kWh, Rs. 8.30/kWh and Rs. 8.17/kWh for the month of April 2022, May 2022 and June 2022, respectively, as shown in Table 33 above. The increase in power purchase cost is due to non-availability of tie-up of cheaper power with Kreate Energy (I) Pvt. Ltd and reliance on Power exchange and bilateral transactions. The variation in power purchase cost is on the

higher side in April 2022, May 2022 and June 2022, mainly on account of higher cost RE and conventional power purchase from exchange. KRCIPPL has purchased actual RE power but has also considered REC purchased previously. Additionally, Kreate CPG invoke amount of Rs. 0.72 Crore credited in April 2022 which has reduced APPC for April 2022.

# 6. FAC on account of fuel and power purchase cost (F)

- 6.1 The Commission has worked out the average power purchase costs for the month of April 2022, May 2022 and June 2022 as shown in Table 23 above. The same has been compared with the average power purchase cost approved by the Commission in MYT Order dated 30 March, 2020 to arrive at the differential per unit rate at which Z<sub>FAC</sub> is to be passed on to the consumers.
- 6.2 Thus, the following Table 4 shows the Z<sub>FAC</sub> worked out by the Commission on account of difference in power purchase cost for the month of April 2022, May 2022, and June 2022, respectively.

Sr. No.	Particulars	Units	Apr 2022	May 2022	Jun 2022
1	Average power purchase cost approved by the Commission	Rs./kWh	3.71	3.71	3.71
2	Actual average power purchase cost	Rs./kWh	7.16	8.30	8.17
3	Change in average power purchase cost (=2 - 1)	Rs./kWh	3.45	4.58	4.46
4	Net Power Purchase	MU	1.89	2.14	2.07
5	Change in power purchase cost (=3 x 4/10)	Rs. Crore	0.65	0.98	0.92

#### Table 4: FAC on account of Fuel and Power Purchase Cost

# 7. Adjustment for over recovery/under recovery (B)

7.1 The adjustment factor for over recovery / under recovery (B) is as shown in the Table 5 below:

S. No.	Particulars	Units	Apr-22	May-22	Jun-22
1.1	Incremental cost allowed to be recovered in Month n-4	Rs. Crore	-	-	-
1.2	Incremental cost in Month n-4 actually recovered in month n-2	Rs. Crore	1121 231211 		- L.V
1.3	(over-recovery)/under-recovery (=1.2 - 1.1)	Rs. Crore		unt he-	-
2.0	Carried forward adjustment for over- recovery/under-recovery attributable to application of ceiling limit for previous month	Rs. Crore	s Accordin R 2022 (al	consideration and of Apr	(0.00)
3.0	Adjustment factor for over-recovery/under- recovery (1.3+2.0)	Rs. Crore		The Court	(0.00)

## Table 5: Adjustment for over recovery/under recovery

# 8. <u>Carrying / Holding Cost for under/over recovery (C)</u>

- 8.1 Carrying /Holding Cost for under/over recovery has been computed at the approved interest rate for the eligible amount which works out to nil in the month of April 2022 and May 2022, and Rs. (0.00) Crore in the month of June 2022.
- 8.2 Holding cost for the month of April 2022 to June 2022 is calculated by considering MCLR + 150 basis points which turns out to be 8.50%, 8.60% and 8.70% for April 2022, May 2022, and June 2022, respectively.
- 8.3 The Commission has computed the holding cost towards the amount under recovered in the month of April 2022 to June 2022, which is as shown in the Table 6 below:

Particulars	Units	Apr 22	May 22	Jun 22
Adjustment factor for over-recovery/under-recovery	Rs. Crore	-	-	(0.00)
Interest rate	%	8.50%	8.60%	8.70%
Carrying cost for over-recovery/under-recovery	Rs. Crore	ing they we are	aseA_	(0.00)

Table 6: Carrying/Holding Cost for over/under-recovery

#### 9. Holding Cost for FAC Fund

- 9.1 The Commission in its FAC approval for the month of March 2021 has decided to accumulate the FAC fund arising out of negative monthly FAC up to March 2023 along with the holding cost. Accordingly, as per said principle laid down by the Commission, KRCIPPL has carried forward the negative FAC amount and accumulated the same in the FAC Fund along with holding cost.
- 9.2 On the similar principle, the Commission has allowed KRCIPPL to carry forward the negative FAC amount in excess of FAC fund approved in the MYT order and accumulate in the FAC fund up to March 2023 along with holding cost.
- 9.3 The Commission has determined positive FAC of Rs. 0.65 Crore, Rs. 0.98 crore and 0.92 crore for April 2022, May 2022 and June 2022, respectively. The positive FAC in April 2022 and May 2022 are adjusted from the available FAC fund to avoid levy the same on the consumers. Accordingly, the Commission has determined FAC fund of Rs. (0.90) Crore at the end of April 2022 (after adjustment of positive/negative FAC).
- 9.4 The Commission has considered SBI MCLR rate of the month plus 150 basis points which works out to 8.50%, 8.60% and 8.70% for April 2022, May 2022 and June 2022, respectively. Accordingly, the Commission has calculated holding cost of Rs. (0.01) Crore and Rs. (0.01) Crore for April 2022 and May 2022, respectively to be contributed to the FAC Pool.
- 10. Disallowance due to excess Distribution Loss

- 10.1 Regulation 10.8 of MYT Regulations, 2019 provides for FAC amount to be reduced in case the actual distribution loss for the month exceeds the approved distribution loss. The relevant extract is reproduced as follows.
  - "10.8 The total  $Z_{FAC}$  recoverable as per the formula specified above shall be recovered from the actual sales in terms of "Rupees per kilowatt-hour":

Provided that, in case of unmetered consumers, the  $Z_{FAC}$  shall be recoverable based on estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

Provided further that, where the actual annual sliding distribution losses of the Distribution Licensee exceed the level approved by the Commission, the amount of  $Z_{FAC}$  corresponding to the excess distribution losses (in kWh terms) shall be deducted from the total  $Z_{FAC}$  recoverable"

10.2 The following Table 7 provides the comparison of approved and actual distribution loss and disallowance due to excess distribution loss:

Sr. No.	Particulars	Units	Approved in Tariff Order	Apr 2022	May 2022	Jun 2022
1	Net Energy input at Distribution Voltages	MU	4.08	1.83	2.07	2.01
2	Energy sales at Distribution voltages	MU	3.98	1.80	2.04	1.98
3	Distribution Loss (1 - 2)	MU	0.10	0.03	0.03	0.03
4	Distribution Loss as % (3/1)	%	2.50%	1.44%	1.58%	1.55%
5	Annual Sliding Distribution Loss (%)	%	inoquimes bit	2.04%	1.97%	1.91%
6	Excess Distribution Loss = [Annual Sliding Distribution Loss - Distribution loss approved] x Net Energy Input (1)	MU		-		
7	Disallowance of FAC due to excess Distribution Loss	Rs. Crore		-		-

#### Table 7: Disallowance of FAC due to excess Distribution Loss

10.3 As can be seen from the Table 7 above, the annual sliding distribution loss for the months of April 2022, May 2022 and June 2022 is 2.04%, 1.97% and 1.91% respectively, which is lower than the MYT approved distribution loss of 2.50%. The monthly distribution loss for the months of April 2022, May 2022 and June 2022 is also lower than the MYT approved distribution loss of 2.50%. The Commission has not worked out any disallowance on account of excess Distribution Loss since the actual sliding distribution loss is lower than approved distribution loss.

#### 11. Summary of Allowable ZFAC

11.1 The summary of the FAC amount as approved by the Commission for the month of April 2022, May 2022 and June 2022 which is allowed to be recovered in the billing month June 2022, July 2022 and August 2022 as shown in the Table 8 below.

Sr. No.	Particulars	Units	Apr 2022	May 2022	Jun 2022
1	Calculation of Z <sub>FAC</sub>				
1.1	Change in cost of generation and power purchase attributable to Sales within the License Area (F)	Rs. Crore	0.65	0.98	0.92
1.2	Carrying cost for over-recovery/under- recovery (C)	Rs. Crore	-	-	(0.00)
1.3	Adjustment factor for over- recovery/under-recovery (B)	Rs. Crore	e-Tuble 7 p.	liee folgede Gesterne	(0.00)
1.5	$Z_{FAC} = F + C + B$	Rs. Crore	0.65	0.98	0.92
2	Calculation of FAC Charge				
2.1	Energy Sales within the License Area	MU	1.80	2.04	1.98
2.2	Excess Distribution Loss	MU			
2.3	Z <sub>FAC</sub> per kWh	Rs./kWh	3.62	4.81	4.68
2.4	Cap at 20% of variable component of tariff		0.72	0.72	0.72
2.5	FAC Charge allowable (Minimum of 2.3 and 2.4)		0.72	0.72	0.72
3	Recovery of FAC	(B)		TO SHEELE	
3.1	FAC disallowed corresponding to excess Distribution Loss [((2.1+2.2) x 2.3)/10]	Rs. Crore		- viene She	
3.2	Allowable FAC	Rs. Crore	0.65	0.98	0.92
4	Utilization of FAC Fund	Contra Juni	sublic and a		
4.1	Opening Balance of FAC Fund	Rs. Crore	(1.55)	(0.90)	
4.2	Holding Cost on FAC Fund	Rs. Crore	(0.01)	(0.01)	
4.3	$Z_{FAC}$ for the month (Sr. No. 3.2)	Rs. Crore	0.65	0.98	0.92
4.4	Closing Balance of FAC Fund	Rs. Crore	(0.90)	-	5
4.5	Z <sub>FAC</sub> leviable/refundable to consumer	Rs. Crore	edt ennet Fi	0.07	0.92
5	Total FAC based on category wise and slab wise allowed to be recovered	Rs. Crore	14 COUC 14-1	0.07	0.14
6	Carried forward FAC for recovery during future period (3.1-3.2-4)	Rs. Crore		(0.00)	0.78

11.2 It can be seen from the Table 8 above that standalone FAC for the month of April 2022, May 2022 and June 2022 is Rs. 0.65 Crore, Rs. 0.98 Crore, Rs. 0.92 Crore respectively. Based on energy sales and excess distribution loss, FAC per unit has been worked out as Rs. 3.62/kWh, Rs. 4.81/kWh and Rs. 4.68/kWh for the months of April 2022, May 2022 and June 2022, respectively as shown above.

11.3 Further, the Regulation 10.9 of MYT Regulations, 2019 specifies as:

Provided that the monthly  $Z_{FAC}$  shall not exceed 20% of the variable component of Tariff or such other ceiling as may be stipulated by the Commission from time to time:

- 11.4 As the FAC per unit computed in the month of April 2022 (Rs. 3.62/kWh), May 2022 (Rs. 4.81/kWh) and June 2022 (Rs. 4.68/kWh) as shown in Table 8 above are higher than the 20% cap (Rs. 0.72/kWh) specified in MYT Regulations, 2019, hence, the restriction is triggered with regards to such ceiling.
- 11.5 Accordingly, considering the ceiling limit (Rs. 0.72/kWh), the FAC recoverable June 2022, July 2022 and August 2022 will be lower. Accordingly, due to ceiling limit (Rs. 0.72/kWh), the FAC recoverable has been worked out as Rs. 0.07 Crore and Rs. 0.14 crore for the months of May 2022 and June 2022 respectively. Thus, FAC equivalent Rs. 0.78 Crore (i.e., Rs. 0.92 Crore minus Rs. 0.14 Crore) for the month of June 2022 has remained unrecovered which will be recovered as part of FAC of upcoming months.
- 11.6 The Commission has also approved a holding cost of Rs. (0.01) Crore and Rs. (0.01) Crore for April 2022 and May 2022 for the FAC fund available during the month of April 2022 and May 2022. The value of the opening FAC fund in April 2022 after considering the holding cost is Rs. (1.56) Crore. The Commission has determined a positive FAC of Rs. 0.65 Crore for April 2022 and Rs. 0.98 crore for May 2022. Accordingly, these positive FAC determined by the Commission for April 2022 and May 2022 are adjusted in the available FAC fund and the FAC fund amount at the end of June 2022 is **Rs. Nil.**

#### 12. Recovery from Consumers:

12.1 Regulation 10.9 of MERC MYT Regulations, 2019 provides for methodology of recovery of FAC charge from each category of consumers. The relevant extract is reproduced as below.

"10.9 The  $Z_{FAC}$  per kWh for a particular Tariff category/sub-category/consumption slab shall be computed as per the following formula: —

 $Z_{FACCat}$  (Rs/kWh) = [ $Z_{FAC}$  / (Metered sales + Unmetered consumption estimates + Excess distribution losses)] \* k \* 10, Where:

 $Z_{FACCat} = Z_{FAC}$  component for a particular Tariff category/sub-category/consumption slab in 'Rupees per kWh' terms;

#### k = Average Billing Rate / ACOS;

Average Billing Rate = Average Billing Rate for a particular Tariff category/subcategory/consumption slab under consideration in 'Rupees per kWh' as approved by the Commission in the Tariff Order:

Page 20 of 22

Provided that the Average Billing Rate for the unmetered consumers shall be based on the estimated sales to such consumers, computed in accordance with such methodology as may be stipulated by the Commission:

ACOS = Average Cost of Supply in 'Rupees per kWh' as approved for recovery by the Commission in the Tariff Order:

Provided that the monthly  $Z_{FAC}$  shall not exceed 20% of the variable component of Tariff or such other ceiling as may be stipulated by the Commission from time to time:

Provided further that any under-recovery in the  $Z_{FAC}$  on account of such ceiling shall be carried forward and shall be recovered by the Distribution Licensee over such future period as may be directed by the Commission...."

12.2 The Commission had invoked power of removing difficulties under MYT Regulation, 2019 and made following changes for computation of FAC.

"Distribution Licensee shall undertake computation of monthly FAC as per Regulation 10 of the MYT Regulations, 2019 except for treatment to be given to negative FAC as follows:

- Negative FAC amount shall be carried forward to the next FAC billing cycle with holding cost.
- Such carried forward negative FAC shall be adjusted against FAC amount for the next month and balance negative amount shall be carried forward to subsequent month with holding cost.
- Such carry forward of negative FAC shall be continued till the accumulated negative FAC becomes 20 % of monthly tariff revenue approved by the Commission in Tariff Order. In case of KRCIPPL such limit shall be Rs.28 Lakh. Any accumulated amount above such limit shall be refunded to consumers through FAC mechanism.
- In case such FAC Fund is yet to be generated or such generated fund is not sufficient to adjust against FAC computed for given month, then Distribution Licensee can levy such amount to the consumers through FAC mechanism, upon seeking prior approval from the Commission."
- 12.3 The following Table 9 shows per unit Z<sub>FAC</sub> for the month April 2022, May 2022 and June 2022 to be levied on consumers of KRCIPPL in the billing month of June 2022, July 2022 and August 2022.

Sr. No	Consumer Category Slabs		Z <sub>FAC</sub> computed for the month of April 2022 (Rs. Crore)	Z <sub>FAC</sub> computed for the month of May 2022 (Rs. Crore)	Z <sub>FAC</sub> computed for the month of June 2022 (Rs. Crore)	
	HT Category					
1	HT- I Industrial	all units	-	0.06	0.11	
2	HT-II Commercial	all units	-	-	-	

#### Table 9: Category wise FAC Revenue for billing month June 2022, July 2022 and August 2022

Sr. No	Consumer Category	Slabs	Z <sub>FAC</sub> computed for the month of April 2022 (Rs. Crore)	Z <sub>FAC</sub> computed for the month of May 2022 (Rs. Crore)	Z <sub>FAC</sub> computed for the month of June 2022 (Rs. Crore)
3	HT III – Electric Vehicle (EV) Charging Stations	all units		0.00	0.00
	LT Category				
4	LT-II(A) Commercial (0-20 kW)	all units	-	0.00	0.00
5	LT-II (B) Commercial (above 20 kW)	all units	-	0.00	0.00
6	LT-III (A) Industrial (0-20 kW)	all units	-	-	-
7	LT-III (B) Industrial (above 20 kW)	all units	-	0.01	0.03
	Total		-	0.07	0.14
