documents or records; taking certified samples of material; taking information in the form of diskettes, floppies, tapes video cassettes or in any other electronic mode or through printouts where such information is stored in a computer or in any other device. The Act, however, does not require the Public Information Officer to deduce some conclusion from the 'material' and supply the 'conclusion' so deduced to the applicant. The PIO is required to supply the 'material' in the form as held by the public authority and is not required to do research on behalf of the citizen to deduce anything from the material and then supply it to him".
