Daily Order

Heard the advocates of the Petitioner and the Respondent.

Petitioner submitted that actual Station Heat Rate (SHR) of the plant is deviating from the norms specified by the Commission in Order dated 30 December, 2014 in Case No. 131 of 2014. Petitioner submitted the technical report of the same along with the Petition. MSEDCL submitted that details of said report was not a part of the Petition and was filed subsequently as a Rejoinder, which they need to study.

The Commission opined that for transparency and credibility of the actual SHR of the Units under consideration, the same needs to be determined by an independent agency. The Commission suggested that services of CPRI may be used for this purpose. Both parties agreed for the same.

Accordingly the Commission has decided to undertake study of determination of actual SHR of Units 2 and 3 of Tiroda Power Station through CPRI, Bangalore. Such study will be without prejudice to the claim of either party in the matter.

On receipt of CPRI report on actual SHR, same will be shared with parties for their comments.

Next date of hearing will be communicated to the parties by the Secretariat of the Commission after submission of report by CPRI.
